Detailed Rationale & Key Rating Drivers

CARE has been seeking information from B L Mehta Constructions Private Limited to monitor the ratings vide letter dated March 07 2019, email communications dated March 05, 2019, March 04, 2019, February 14, 2019, January 17, 2019, November 28, 2018 and numerous phone calls. However, despite our repeated requests, the company has not provided the requisite information for monitoring the ratings. In line with the extant SEBI guidelines, CARE has reviewed the rating on the basis of the best available information which however, in CARE's opinion is not sufficient to arrive at a fair rating. The rating on B L Mehta Constructions Private Limited's bank facilities will now be denoted as **CARE B+; Stable/ CARE A4;**

ISSUER NOT COOPERATING*.

Users of this rating (including investors, lenders and the public at large) are hence requested to exercise caution while using the above ratings.

The ratings have been revised on account of fragmented nature of the construction sector albeit improving growth prospects. The ratings are further constrained by small and fluctuating scale of operations along with low profitability margins, weak debt coverage indicators, elongated operating cycle and intense competition due to exposure to tender driven nature of business. The ratings, however, derive strength from experienced promoters and established track record of entity, moderate capital structure, moderate order book position with presence of price escalation clause in contracts.

Detailed description of the key rating drivers

Key Rating Weaknesses

Fragmented nature of the construction sector albeit improving growth prospects

The construction sector in India is highly fragmented with a large number of small and mid-sized players. This coupled with tendering process in order procurement results into intense competition within the industry. Despite these road blocks faced by the industry, the sector is expected to grow, given huge economic significance associated with it and rising investor interest. Also, the outlook for Indian construction sector continues to be stable in the medium to long-term on account of increased thrust of Government on development of infrastructure to support economic growth.

Small and fluctuating scale of operations along with low profitability margins

The company's scale of operations has remained low marked by Total Operating Income (TOI) of Rs. 57.18 crore in FY17. The small scale limits the company's financial flexibility in times of stress and deprives it from scale benefits. Furthermore, the scale of operations of the company witnessed a fluctuating trend during FY15- FY17 period as TOI declined from Rs. 115.66 crore in FY15 to Rs. 46.42 crore in FY16. The profitability margins of the company stood low marked by PBILD margin and PAT margin of 7.23% and 0.20% respectively in FY17. The operating profit margin of BLM stood low owing to its presence in highly fragmented industry. This coupled with tendering process in order procurement results into intense competition within the industry.

*Issuer did not cooperate; Based on best available information

Weak debt coverage indicators

The debt coverage indicators of the company stood weak marked by interest coverage ratio and total debt to GCA of 1.11x in FY17 and 20.81x for FY17 respectively. The interest coverage ratio deteriorated from 1.83x in FY16 owing to a decrease in PBILDT in absolute terms coupled with an increase in the interest expenses. Additionally, the total debt to GCA also deteriorated from 9.27x for FY16 owing to an increase in the total debt level coupled with declining GCA.

Elongated operating cycle

The average operating cycle of the company stood at 118 days for FY17 (PY: 132 days). The company receives payment from the client on percentage of completion basis. Nearly 90% of the bill amount raised by the company is received every 15 days. The company receives credit period of upto 15 days from its suppliers of raw materials. The average utilization of cash credit limits stood at 80% for the last 12 months period ended December 2017.

Intense competition due to exposure to tender driven nature of business

BLM's business is tender-based which is characterized by intense competition resulting in low operating margins for the company. The growth of business depends entirely upon the company's ability to successfully bid for tenders and emerge as the lowest bidder. Therefore, the ability of the company to secure new orders and successful execution with existing competition remains a concern.

Key Rating Strengths**Experienced promoters and established track record of entity**

BLM has been working as a Civil Contractor for thirteen years which aids in establishing relationship with suppliers. The company is currently being managed by Mr. Brij Lal and his son Mr. Piare Lal Mehta. Both the directors have an industry experience of around three and a half decades through their association with BLM since the inception and previously through Inderjit Mehta Constructions Private Limited (CRISIL BBB-/A3 ; Positive) as directors.

Moderate capital structure

Capital structure of the company remained moderate with overall gearing ratio of 1.48x as on March 31, 2017. The same deteriorated from 1.12x as on March 31, 2016 owing to an increase in term loan and unsecured loans coupled with higher utilization of working capital limits as on last balance sheet date as compared to previous year.

Moderate order book position with presence of price escalation clause in contracts

The company has a moderate order book position with outstanding order book of Rs. 272.00 crore as on January 3, 2018, to be executed by March 2019. The current order book of the company is 4.76x times of the revenue for FY17. The order book of the company comprises orders in early stages of execution, which provides sufficient medium term visibility on the revenue stream. The price escalation clause is present in some of the contracts executed by BLM, thereby mitigating the risk of raw material price fluctuation.

About CARE Ratings:

CARE Ratings commenced operations in April 1993 and over two decades, it has established itself as one of the leading credit rating agencies in India. CARE is registered with the Securities and Exchange Board of India (SEBI) and also recognized as an External Credit Assessment Institution (ECAI) by the Reserve Bank of India (RBI). CARE Ratings is proud of its rightful place in the Indian capital market built around investor confidence. CARE Ratings provides the entire spectrum of credit rating that helps the corporates to raise capital for their various requirements and assists the investors to form an informed investment decision based on the credit risk and their own risk-return expectations. Our rating and grading service offerings leverage our domain and analytical expertise backed by the methodologies congruent with the international best practices.

Disclaimer

CARE's ratings are opinions on credit quality and are not recommendations to sanction, renew, disburse or recall the concerned bank facilities or to buy, sell or hold any security. CARE has based its ratings/outlooks on information obtained from sources believed by it to be accurate and reliable. CARE does not, however, guarantee the accuracy, adequacy or completeness of any information and is not responsible for any errors or omissions or for the results obtained from the use of such information. Most entities whose bank facilities/instruments are rated by CARE have paid a credit rating fee, based on the amount and type of bank facilities/instruments.

In case of partnership/proprietary concerns, the rating /outlook assigned by CARE is based on the capital deployed by the partners/proprietor and the financial strength of the firm at present. The rating/outlook may undergo change in case of withdrawal of capital or the unsecured loans brought in by the partners/proprietor in addition to the financial performance and other relevant factors.
