

Central Bank of India

December 15, 2017

Ratings

Instrument	Amount (Rs. crore)	Rating ¹	Rating Action
Lower Tier II Bonds	270	CARE A; Negative (Single A; Outlook: Negative)	Reaffirmed
Upper Tier II Bonds	2,285	CARE A-; Negative (Single A Minus; Outlook: Negative)	
Total	2,555 (Rs. Two thousand five hundred and fifty five crore only)		

Details of instruments/facilities in Annexure-1

CARE has rated the aforesaid Upper Tier II Bonds after taking into consideration their increased sensitiveness to Central Bank of India's Capital Adequacy Ratio (CAR), capital raising ability and profitability during the long tenure of the instruments. The rating factors in the additional risk arising due to the existence of the lock-in clause in the hybrid instruments. Any delay in payment of interest/principal (as the case may be) following invocation of the lock-in-clause, would constitute as an event of default as per CARE's definition of default and as such these instruments may exhibit a somewhat sharper migration of the rating compared to the conventional subordinated debt instruments.

Detailed Rationale & Key Rating Drivers

The ratings assigned to the facilities of CBI factor in the majority ownership and capital support by the Government of India (GoI), long track record of operations with an extensive branch network, comfortable Current Account Savings Account (CASA) base. However, the ratings are constrained by weak asset quality, weak profitability measures and deterioration in capital adequacy parameters.

Continued ownership and support from GoI with adequate capital infusion, profitability and asset quality are the key rating sensitivities.

Outlook: Negative

The outlook reflects expectation of continued pressure on asset quality and profitability parameters of the bank going forward. The outlook may be revised to 'Stable' in case of sustainable improvement in bank's asset quality and earning profile.

Detailed description of the key rating drivers

Rating Strengths

Majority ownership and capital support by GoI

Government of India is the major shareholder in the bank with a stake of 81.28% stake as on March 31, 2017. GOI has been supporting the bank through periodic capital infusion and during FY17 (refers to period from April 01 to March 31), the bank had equity infusion of Rs.2,137 crore. However, considering the capital requirement of the bank to comply with

¹Complete definitions of the ratings assigned are available at www.careratings.com and in other CARE publications.

the Basel III regulations, GOI would be required to infuse substantial amount of equity capital over the near term. The rating factors in the support that the bank is expected to get from GoI.

Long track record and pan India network

Central Bank of India is a nationalized bank of significant size which was incorporated on December 21, 1911. It has a long track record of operations with a pan India network of 4715 total branches, 3677 Ultra – Small Branches (USBs) and 5239 ATMs across the country as of September 30, 2017.

Comfortable resources profile

The bank has been able to consistently maintain its CASA deposit base in the range of 30-40% for the past three years. Healthy CASA base has helped the bank in maintaining its NIM at 2.09% despite asset quality stress (P.Y.2.31%). In FY17 (refers to the period April 1 to March 31), CASA increased to Rs.1,16,310 crore from Rs.94,455 crore, recording Y-o-Y growth of 23.14%. Share of CASA in total deposits stood at 39.20%.

Rating Weaknesses

Deterioration in capital adequacy parameters

The bank reported Total CAR (as per Basel III norms) of 10.95% [P.Y.: 10.40%] with Tier I CAR at 8.62% [P.Y.:8.20%] as on March 31, 2017.

As on September 30, 2017, the bank reported total CAR and Tier I CAR of 9.22% and 7.04% respectively. As per Basel III guidelines, bank's minimum capital requirement in terms of Total CAR, Tier I CAR and CET I ratio are 10.25%, 8.25% and 6.75% (including 1.25% of CCB) respectively as on March 31, 2017. Considering the bank's weak profitability and asset quality, it would need to improve its capitalisation to meet minimum regulatory requirement. The bank will require substantial capital infusion in the near term for funding future advances growth as well to take care of its weak asset quality.

Weak asset quality

Asset quality continues to be under stress and the bank reported Gross NPA at 17.81% at the end of FY17 [P.Y. 11.95%] Its Net NPA to Net worth increased to 114.73% from 95.7% as on March 31, 2017. Iron and steel, engineering and manufacturing, power generation, textile and infrastructure are the major sectors in which bank has seen large amount of NPAs. The bank's standard restructured assets outstanding decreased 31% to Rs.7,543 crore as on March 31, 2017 [P.Y.: Rs.10,970 crore] which is 5% of advances and 61% of net worth. The total stressed assets (Gross NPA plus std. restructured assets plus Security Receipts as a percentage of advances) increased to 27.36% from 20.59% a year ago. At the end of H1FY18, Gross NPA ratio and Net NPA stood at 17.27% and 9.53% respectively.

Deterioration in earnings profile

The bank has been reporting losses during the last two financial years. During FY17, the bank's profitability declined substantially and it reported a net loss of Rs.2,439 crore on total income of Rs.27,537 crore on account of high provisioning which increased to Rs.5,528 crore. The bank's Net Interest Margin (NIM) declined to 2.09% [P.Y. 2.31%] in FY17.

Profitability continues to be weak with the bank reporting net loss of Rs.1,327 crore over total income of Rs.13,767 crore during H1FY18.

Analytical approach: The bank has been assessed on standalone basis. However, the assessment also factors in expected support from Gol.

About CARE Ratings:

CARE Ratings commenced operations in April 1993 and over two decades, it has established itself as one of the leading credit rating agencies in India. CARE is registered with the Securities and Exchange Board of India (SEBI) and also recognized as an External Credit Assessment Institution (ECAI) by the Reserve Bank of India (RBI). CARE Ratings is proud of its rightful place in the Indian capital market built around investor confidence. CARE Ratings provides the entire spectrum of credit rating that helps the corporates to raise capital for their various requirements and assists the investors to form an informed investment decision based on the credit risk and their own risk-return expectations. Our rating and grading service offerings leverage our domain and analytical expertise backed by the methodologies congruent with the international best practices.

Disclaimer

CARE's ratings are opinions on credit quality and are not recommendations to sanction, renew, disburse or recall the concerned bank facilities or to buy, sell or hold any security. CARE has based its ratings/outlooks on information obtained from sources believed by it to be accurate and reliable. CARE does not, however, guarantee the accuracy, adequacy or completeness of any information and is not responsible for any errors or omissions or for the results obtained from the use of such information. Most entities whose bank facilities/instruments are rated by CARE have paid a credit rating fee, based on the amount and type of bank facilities/instruments.

In case of partnership/proprietary concerns, the rating /outlook assigned by CARE is based on the capital deployed by the partners/proprietor and the financial strength of the firm at present. The rating/outlook may undergo change in case of withdrawal of capital or the unsecured loans brought in by the partners/proprietor in addition to the financial performance and other relevant factors.
