Details of instruments/facilities in Annexure-1

*rating assigned to the non-convertible debentures worth Rs.3656.20 crore is withdrawn with immediate effect, as the company has fully repaid the amounts under the said instrument and there is no amount outstanding under the issue.

CARE has rated the aforesaid Perpetual Debt after taking into consideration their increased sensitiveness to the Capital Adequacy Ratio (CAR), capital raising ability and profitability during the long tenure of the instrument. The rating factors in the additional risk arising due to the existence of the lock-in clause in the instrument. Any delay in payment of interest/principal (as the case may be) following invocation of the lock-in-clause, would constitute as an event of default as per CARE's definition of default and as such these instruments may exhibit a somewhat sharper migration of rating compared to other debt instruments.
