Detailed Rationale & Key Rating Drivers

The reaffirmation of the ratings assigned to the bank facilities and instruments of Hindustan Construction Company Limited (HCC) takes into account the ongoing delays in servicing the debt obligations. The debt servicing capability of the company is stressed on account of a high debt burden and resultant finance costs being incurred along with stressed working capital cycle on account of delayed receipt of dues and claim settlement from customers.

Pursuant to the directive of NITI Aayog, the receipt of 75% arbitral award has reduced the total debt outstanding; however the delays in repayments still persist.

Detailed description of the key rating drivers

Delays in Debt Servicing:

There are on-going delays in servicing of term loans and there are instances of overdrawals and devolvement in fund-based and non-fund based limits ranging between 30 to 90 days.

Elongated working capital cycle:

The working-capital cycle of the company continues to be elongated owing to delays in recoveries from customers and high amount of inventory held due to delays in commencement of projects.

Analytical approach: Standalone
