Detailed Rationale & Key Rating Drivers

The revision in the rating assigned to the long-term Inter-Corporate Deposit (ICD) issue of IL&FS Energy Development Company Limited (IEDCL) factors in the moderation in the credit profile of the credit enhancement provider i.e. Infrastructure Leasing & Financial Services Limited (IL&FS) wherein the ratings are revised to CARE AA+ (credit watch with negative implications) /CARE A1+ from CARE AAA; Stable/CARE A1+.

The revision in the long term ratings of IL&FS is on account of build-up of company's debt levels over a period of time on the back of increase in funding support to key subsidiaries and group companies. Although, IL&FS has been maintaining its profitability through stake sale / divestments in its group entities, the actual realization through sale of core assets has been stagnant over a period resulting into moderation in the financial flexibility and corresponding increase in the debt levels. IL&FS has embarked upon several strategic measures for de-leveraging its balance sheet including capital infusion from existing shareholders and monetization of assets.

The ratings continue to factor in IL&FS's strong institutional ownership, experienced management and demonstrated track record and expertise in the infrastructure sector. The ratings also take into account IL&FS's ability to fund its infrastructure subsidiaries / group companies while maintaining capitalisation and gearing levels and asset liability maturity profile. IL&FS's ability to maintain the adequate capitalization and leverage ratio with expected capital infusion and monetization of the assets through stake sale / exit while maintaining the profitability would be the key rating sensitivities.

The ratings have been put on 'credit watch with negative implications' on account of the group's pursuit of a strategic plan to de-leverage the balance sheet by way of equity infusion, reduction of debt by refinancing the exposures in group companies and monetization of certain identified (core as well as non-core) assets by end of FY19 (refers to period from April 01 to March 31). Given the heightened leverage levels and the immediate need to support the group entities, infusion of equity capital in a time bound manner would be critical; any delay would exacerbate the company's financial profile. CARE Ratings would continue to monitor the progress made by the group with respect to these strategic initiatives. Timely progress with respect to these initiatives would be critical for the credit profile of the company and will be a key rating monitorable.

The rating of Rs. 100 crore will remain provisional till the receipt of final transaction documents such as Information Memorandum, Debenture Trustee Agreement, DSRA Support Undertaking and any other agreement and undertaking executed between the parties with respect to the debentures and the transactions contemplated under this undertaking to the satisfaction of CARE Ratings Limited.

Detailed description of the key rating drivers

Key Rating Strengths

An unconditional and irrevocable support undertaking from IL&FS

An unconditional and irrevocable support undertaking from IL&FS in the favour of the long-term ICD holders to the effect that IL&FS will provide requisite support that will enable IEDCL to repay ICDs on due dates in the event IEDCL is not able to meet such obligations through its own resources.

Analytical approach: For arriving at rating of IEDCL ICDs, CARE has considered standalone credit profile of Infrastructure Leasing and Financial Services (IL&FS) Limited, which has provided unconditional and irrevocable support undertaking.
