Detailed Rationale & Key Rating Drivers

CARE has placed the ratings assigned to J. M. Hosiery & Co. Limited (JMHCL) on credit watch with developing implications. The rating action follows the approval of a Composite Scheme of Arrangement by Lux Industries Limited's (LIL, rated CARE A+; Stable/CARE A1+) Board of Directors regarding merger of JMHCL and Ebell Fashions Private Limited (EFPL) with LIL. Upon the Scheme becoming effective and in consideration of the merger, LIL will offer 29 equity shares of Rs.2 each fully paid up of LIL for every 100 equity shares of Rs.10 each fully paid up of JMHCL and 1142 equity shares of Rs.2 each fully paid up of LIL for every 100 equity shares of Rs.10 each fully paid up of EFPL. CARE will continue to monitor the developments in this regard and will take a view on the ratings once the merger process is completed.

The rating assigned to the bank facilities of JMHCL derives strength from the long track record and significant experience of the promoters, Lux group's integrated nature of operations and wide product range with established brand presence in the hosiery industry and established selling & marketing arrangements of the group. The rating also takes into account the satisfactory financial performance of JMHCL marked by growth in revenue, stable profitability margins and moderate capital structure.

The rating, however, continues to be constrained by the working capital intensive nature of operations, exposure to volatility in the prices of raw materials and intense competition.

Detailed description of the key rating drivers

Key Rating Strengths

Long track record of operations and significant experience of promoter in the hosiery industry

JMHCL is a part of the Lux group which traces its origins to Mr Girdharilalji Todi who had started the business of manufacturing innerwear in 1957. His sons, Mr Ashok Todi and Mr Pradeep Todi, the current promoters, also have an experience of over three decades in the hosiery business.

Lux group's integrated nature of operations

The major entities of the group are LIL, JMHCL, EFPL and S. D. International (SDI) and they share a common marketing and advertisement network, along with common suppliers. LIL's focus is on the men's innerwear and outerwear including thermal wear with its major brands being *ONN*, *Lux Cozi*, *Lux Classic*, *Lux Venus*, *Lux Cottswool*, *Inferno*. While JMHCL is more focused on women's innerwear and outerwear and markets its products under the brand names *GenX*, *KoolZ*, *Touch*, *Karishma* and *Target*, EFPL focuses on women's leggings under the brand name *Lux Lyra*. SDI focuses on kids wear for export markets.

Wide product range of the group coupled with established brand presence in hosiery industry

The Lux group has over the years broadened its product portfolio, which now spans innerwear products for men, women as well as children, across all price ranges; leggings, thermal wear, socks and casual outer wears.

Furthermore, the group has aggressively pursued various marketing and promotional activities to build a strong brand name. Besides branding which has created a demand pull, the group has also expanded its distribution network.

Stable operational performance

The total operating income of the company has witnessed growth over the years along with stable profitability margins.

Moderate capital structure and debt coverage indicators

¹Complete definition of the ratings assigned are available at www.careratings.com and other CARE publications

The capital structure and debt coverage indicators of the company continued to remain moderate.

Key Rating Weaknesses

Working capital intensive nature of operations

The operations of the company are working capital intensive primarily due to high collection period and inventory holding.

Raw material price fluctuation risk

The major raw materials for JMHCL are yarn/knitted yarn, the prices of which are dependent on the prices of cotton which being commodity in nature have volatile price movements. However, the company is able to pass on the increase in raw material prices.

Industry characterised by intense competition.

The industry is characterised by significant competition from established players and dominated by the unorganised segment.

Analytical approach:

Standalone while factoring linkages within the group.
