Detailed Rationale & Key Rating Drivers

The rating assigned to the instrument of JK Lakshmi Cement Limited (JKLC) continues to derive strength from the experienced promoters, strong brand image and diversified presence of the company in the northern, western and eastern Indian market, comfortable liquidity position, strong operating efficiencies of the company in terms of raw material and power consumption parameters, and its consistent track record in achieving better volume growth than industry. The rating is, however, tempered by relatively moderate solvency profile, volatile input costs and cyclicity associated with cement industry.

Going forward, the achievement of envisaged sales realization and volume growth, improvement in profitability in light of volatile input costs, timely setting up of 20 MW Thermal Power Plant (TPP) at Durg, exposure to stabilisation risks for the recently commissioned capacity, viz. additional capacity and the plant under its subsidiary, Udaipur Cement Works Limited (UCWL) and any higher than anticipated capex shall be the key rating sensitivities.

Detailed description of the key rating drivers

Key Rating Strengths

Experienced promoters and strong brand image: The promoters of JKLC have extensive experience in business of cement manufacturing. JKLC has a strong presence, especially in northern & western markets of India under the brand name 'JK Lakshmi Cement' in addition to its presence in the eastern Indian market.

Diversified market presence: The Durg plant which commissioned in March 2015 has reached healthy capacity utilization. Thus, the company's expanded footprint now spans the northern (Haryana, Delhi, Punjab, Uttarakhand, Rajasthan), western (Gujarat, Maharashtra) and eastern regions (majority sales from Chhattisgarh; rest from Odisha, Bihar & West Bengal).

The company has also commissioned the Surat unit on September 30, 2016, which is catering to incremental demand emanating from the western market. The company has completed the capacity enhancement at Durg in March 2017 (from 1.8 mtpa to 2.7 mtpa). Also, WHRP of 7 MW has been recently commissioned at Durg. In addition, the cement plant of 1.6 mtpa under Udaipur Cement Works Ltd (UCWL) has been commissioned with start of commercial production from March 2017.

Comfortable liquidity profile: The liquidity position of the company continues to be comfortable with free cash balance (including liquid investments) of Rs.411 crore as on April 15, 2018.

Improvement in financial performance in FY17: During FY17, the operating income of JKLC at the standalone level increased by 12.65% y-o-y to Rs.2,953.06 crore on account of increase in volumes by about 8.50% and average realization by about 2.50%, although the financial performance was impacted on account of demonetization on cement demand and realizations during Q3FY17 and Q4FY17. Also, during FY17, at the standalone level, the company achieved net profit of Rs.81.14 crore as against net loss of Rs.7.62 crore in FY16 whereas GCA increased to Rs.246.67 crore in FY17 as against Rs.113.19 crore in FY16. During 9MFY18, the company has achieved total operating income of Rs.2,658.97 crore, PAT of Rs.50.12 crore and GCA of Rs.202.32 crore at the standalone level as against total operating income of Rs.2,355.84 crore, PAT of Rs.61.15 crore and GCA of Rs.195.35 crore during 9MFY17.

At the consolidated level also, during FY17, operating income of JKLC increased by 12.23% y-o-y to Rs.2,979.46 crore while net profit stood at Rs.87.26 crore and GCA at Rs.254.56 crore as against net profit of Rs.4.26 crore and GCA of Rs.114.85 crore during FY16.

¹Complete definitions of the ratings assigned are available at www.careratings.com and in other CARE publications.

Recovery of cement industry: Given the inherent cyclical nature of the cement industry, the company remains exposed to risks associated with the same. Demand and hence production was impacted post demonetization wherein at a y-o-y basis, there was de-growth till March 2017; however, there has been improvement from March 2017 onwards in realizations. Also, GST implementation impacted the volumes during the year. Also, there has been increase in input cost. However, higher outlay and focus on infrastructure, housing and rural development are likely to boost the cement demand in the long-term, which in turn will benefit the companies in the sector.

Key Rating Weaknesses

Moderate solvency position: On account of issuance of NCDs of Rs.300 crore and drawdown of debt for capex for projects, the overall gearing ratio of the company has increased to 1.58x as on March 31, 2017 at the standalone level (1.47x as on March 31, 2016). However, on account of healthy cash & cash equivalents, net gearing ratio has improved to 1.21x as on March 31, 2017 at the standalone level (1.27x as on March 31, 2016). Similarly, at the consolidated level also, the overall gearing ratio of the company has increased to 2.00x as on March 31, 2017 (1.78x as on March 31, 2016) whereas net gearing ratio has increased marginally to 1.61x as on March 31, 2017 (1.55x as on March 31, 2016).

Exposure to volatility in prices of coal and fuel cost: The company generally procures the coal from open market from domestic and international coal producers. Also, a significant portion of fuel requirement (around 84%) is met through pet coke, which is sourced from domestic producers. Absence of long-term fuel supply agreements and coal linkages; exposes the company to any adverse volatility in the prices of the commodities.

About the Company

JKLC (CIN No.: L74999RJ1938PLC019511), a part of JK Group (East), was incorporated in 1938 and commenced the cement business in August 1982. JKLC is headed by Mr Bharat Hari Singhania (Chairman & Managing Director) and is in the business of manufacturing Ordinary Portland Cement (OPC), Blended Cement (PPC), Ready Mix Concrete (RMC) and Autoclaved Aerated Concrete (AAC) Blocks. JKLC has a cement capacity of 10.9 million tonne per annum (mtpa) at the standalone level and 12.5 million tonne per annum (mtpa) at the consolidated level in addition to power capacity of 74 MW as on March 31, 2017, and is one of the leading cement players in the north and western India region. The company has also expanded its presence in the Eastern market, which is served through its 2.7 mtpa Durg, Chhattisgarh cement plant. The Northern and Western markets are catered through its integrated cement and grinding units located in Rajasthan, Gujarat, and Haryana.

About CARE Ratings:

CARE Ratings commenced operations in April 1993 and over two decades, it has established itself as one of the leading credit rating agencies in India. CARE is registered with the Securities and Exchange Board of India (SEBI) and also recognized as an External Credit Assessment Institution (ECAI) by the Reserve Bank of India (RBI). CARE Ratings is proud of its rightful place in the Indian capital market built around investor confidence. CARE Ratings provides the entire spectrum of credit rating that helps the corporates to raise capital for their various requirements and assists the investors to form an informed investment decision based on the credit risk and their own risk-return expectations. Our rating and grading service offerings leverage our domain and analytical expertise backed by the methodologies congruent with the international best practices.

Disclaimer

CARE's ratings are opinions on credit quality and are not recommendations to sanction, renew, disburse or recall the concerned bank facilities or to buy, sell or hold any security. CARE has based its ratings/outlooks on information obtained from sources believed by it to be accurate and reliable. CARE does not, however, guarantee the accuracy, adequacy or completeness of any information and is not responsible for any errors or omissions or for the results obtained from the use of such information. Most entities whose bank facilities/instruments are rated by CARE have paid a credit rating fee, based on the amount and type of bank facilities/instruments.

In case of partnership/proprietary concerns, the rating /outlook assigned by CARE is based on the capital deployed by the partners/proprietor and the financial strength of the firm at present. The rating/outlook may undergo change in case of withdrawal of capital or the unsecured loans brought in by the partners/proprietor in addition to the financial performance and other relevant factors.
