Detailed Rationale, Key Rating Drivers and Detailed description of the key rating drivers

CARE has withdrawn the outstanding ratings of 'CARE BB+; Stable/CARE A4+' [Double B Plus; Outlook: Stable/A Four Plus] assigned to the bank facilities of Jet Freight Logistics Limited with immediate effect. The above action has been taken at the request of Jet Freight Logistics Limited and 'No Objection Certificate' received from the bank(s) that have extended the facilities rated by CARE.

Detailed description of the key rating drivers
Key Rating Weaknesses

Modest scale of operations coupled with moderate profit margins: The overall size of operations of the company remained modest due to intense competition in the industry however it increased by ~30% in FY18 on account of more orders executed by the company and also addition of new customers to the portfolio. Further, being a logistic service provider and to survive in the competitive scenario, profit margins of the business remained at moderate level. Despite long track record of operations, net worth base remained small thus limiting financial flexibility of the entity.

Moderately leveraged capital structure and moderately weak debt coverage indicators: Company's capital structure and debt coverage indicators stood moderate over the period of last four years ended FY18 on account of low net worth base and higher utilization of its working capital limit to support the growing scale of operations and term loan taken. However, gearing level improved as on March 31, 2018 on account of issue of equity shares on premium and accretion of profits. Furthermore, owing to improved profitability debt coverage indicators have also improved during FY18.

Moderately working capital intensive nature of operation: Operations of JFLL are moderately working capital intensive in nature mainly on account of funds being blocked in receivables and average debtor's period remained high during FY18 however debtors are fully insured. Further company receives only one month period from airline authorities therefore operations are dependent on working capital borrowings and remained moderately working capital intensive. Liquidity position remained moderate with current ratio of 1.34x as on March 31, 2018 due to high creditors and bank borrowings to support the debtors' level.

Presence in intensely competitive and fragmented nature of logistics industry: The industry is highly unorganized and the company faces intense competition from both the organized as well as unorganized players in the air transportation business. The company also has low bargaining power with the airlines. Fuel is the major cost component of the transportation business and any significant increase in diesel cost is passed on to the client.

Key Rating Strengths

Long track record of operation with experienced and qualified management: JFLL has long track record of more than three decades of operations in logistics industry and company is managed by Theknath family, with managing director Mr. Richard Theknath, having around 15 years of experience in freight forwarding and handles the overall management and strategic decision making. He is further supported by other directors namely Mr. Dax Theknath (whole time director), Ms. Agnes Theknath (Non-executive director), Mr. Nikhil Arya (Non-executive and independent director) and Mr. Cypriano Savio Fernandes (independent director). The directors are further supported by experienced second line of management, Mr. Jabir Contractor (CFO), having around 24 years of experience in audit, finance and accounting and Ms. Shraddha Mehta (Company secretary and compliance officer) who is a law graduate and has reasonable experience in compliance matters. Further recently, company has appointed Mr. Sunil Mehra as a CEO of domestic logistics department who has around 37 years of experience in logistics industry.
