Detailed Rationale & Key Rating Drivers

The ratings assigned to bank facilities/debt instruments of Jindal Saw Limited (JSAW) continue to derive strength from experienced promoters and management with a long track record of operations, steadily growing total operating income with healthy operating margins backed by a healthy order book position. The ratings also factor in diversified operations with healthy product portfolio, competitive cost structure with captive availability of iron ore for pellet plant and comfortable financial risk profile marked by moderate gearing as well as debt coverage indicators and adequate liquidity position. However, ratings remain constrained due to the high (albeit reducing) exposure towards subsidiaries/group companies and working capital intensive nature of operations.

Going forward, the company's ability to achieve envisaged profitability while effectively managing its working capital requirements, reduction in exposure towards its subsidiaries and overall indebtedness of JSAW after receipt of arbitration proceeds by JITF shall remain a key monitorable.

Detailed description of key rating drivers**Key Rating Strengths**

Experienced promoters with long track record: JSAW is part of diversified PR Jindal group. The company has a rich business vintage of over 30 years. It enjoys a dominant position in longitudinal and helical SAW steel pipe segment owing to its large capacities and established domestic and international clientele. The promoters have extended continuous financial support to various subsidiaries of JSAW as well as demerged entities. Further, there is a demonstrated support from promoter group entities towards the needs of overseas subsidiaries of JSAW and demerged entities where JSAW has extended corporate guarantees in the past.

Growing total operating income and healthy margins: The total operating income increased by 33% during FY19 (refers to period: April 01 to March 31) and stood at Rs 10091.83 cr (PY: Rs 7557.42 cr) on account of increase in sales volumes as well as realizations. PBILDT margin moderated but stood healthy during FY19 due to higher raw material prices. However, blended PBILDT per ton improved during FY19. JSAW operates in five product segments and despite fluctuation in individual PBILDT margins; PBILDT per ton has remained steady over the years reflecting the benefits of product diversification. During Q1FY20 (refers to period: April 01 to June 30), JSAW reported an improvement in PBILDT margin to 15.33% (PY: 14.93%) while total income also grew to Rs.2,628.94 crore during Q1FY20 (PY: Rs.2,346 crore).

Comfortable financial risk profile: The overall gearing of the company continued to remain comfortable at 0.81x as on March 31, 2019 (PY 0.77x). The slight deterioration in gearing is attributable to higher LC utilization at year end. The interest coverage ratio remained healthy at 2.99x during FY19 (PY: 2.99x) while total debt to GCA stood moderate at 6.44x as on March 31, 2019 (PY: 6.33x).

Healthy order book position: JSAW continues to have a healthy order book of nearly USD 1.03 billion in terms of value and 1.058 million tonnes in terms of volume as on June 30, 2019 which comprised of orders of USD 628 million of SAW pipes, USD 375 million of DI pipes and USD 30 million of seamless pipes. The orders in SAW pipe segment are expected to

¹Complete definitions of the ratings assigned are available at www.careratings.com and in other CARE publications.

be executed within 9 to 12 months whereas the timeline for execution of orders in DI pipes segment ranges from 12 to 15 months. Also, the current order book includes exports orders of 28%.

Diversified operations with healthy product portfolio: JSAW has geographically diversified operations spread across Kosi Kalan (Uttar Pradesh), Mundra (Gujarat), Nasik (Maharashtra) and Bellary, (Karnataka). The company also has presence in Bhilwara (Rajasthan), where, apart from having low grade iron ore mine, it has also implemented iron ore beneficiation and a pellet plant. It has a healthy product portfolio with presence across major segments of the pipe industry viz. LSAW pipes, HSAW pipes, DI pipes, seamless pipes, SS pipes, anti-corrosion coated pipes, hot-pulled induction bends etc. All the products contributed between 10% to ~30% of total revenue providing diversification to the cash flows and hedge against market volatility related to any single product.

Competitive cost structure with captive availability of iron ore for pellet plant: JSAW has been allocated a mine in Bhilwara with estimated reserves of nearly 180 million tons of low-grade iron ore and extracts about 6-7 million tons annually. The company installed an iron ore beneficiation plant and a pellet plant in FY14. The operations of these plants have stabilized and reported 100% capacity utilization over the past three years through FY19. The pellets division reported sales of Rs. 1,141 crore in FY19 representing a growth of 28% over previous year. The captive availability of iron ore leads to competitive cost structure for the pellets manufactured by the company.

Key Rating Weakness

Working capital intensive nature of business: JSAW has working capital intensive nature of operations as reflected by operating cycle of 131 days as on March 31, 2019 which improved from 169 days as on March 31, 2018 largely on account of Increase in average creditor days. The working capital cycle remains high largely on account of high inventory owing to diversified product portfolio. The inventory days stood at 106 days in FY19 as against 118 days in FY18 and collection period of close to 2 months which stood at 65 days in FY19 (PY: 71 days).

Exposure towards subsidiaries/group companies: JSAW has investments of Rs.665 cr as on March 31, 2019 (PY: Rs 648 cr) in subsidiaries/JV/Associates and loans and advances extended to related parties stood at Rs.1,248 cr as on March 31, 2019 (PY: Rs.1,059 cr). JSAW's commitments towards its subsidiaries in the form of corporate guarantee, shortfall undertakings, put options and letter of comfort stood at Rs.714 cr as on March 31, 2019 (PY: Rs.793 cr). The exposure is expected to remain restricted in the future as JSAW is monetizing its subsidiaries and non-core businesses. During FY19, the company has divested its 81% shareholding in Jindal Saw Italia S.p.A.

Also, JSAW has provided substantial amount of financial support by way of loans and advances as well as equity investment in one of its subsidiaries, Jindal ITF Limited (JITF), which is under litigation with NTPC against which the Arbitral Tribunal has pronounced the final award in the favor of JITF. On January 27, 2019 JITF had received favorable award from arbitral tribunal which had directed NTPC to pay an amount of Rs.1891.08 crore plus interest and applicable taxes to JITF. However, NTPC challenged the Arbitral Award dated January 27, 2019 and filed its objections before the Hon'ble High Court of Delhi. On September 23, 2019, matter was heard before the court and court ordered NTPC to deposit Rs 500 cr within six weeks with the court which can be withdrawn by JITF by providing bank guarantee to the court. The matter is expected to remain sub judice as NTPC and JSAW may appeal against single bench order. Further developments will remain a key monitorable.

Adequate Liquidity:- During FY20, CARE expects JSAW to report a GCA of about Rs 892 cr with a debt repayment of 236 cr in the same year. Also, JSAW is meeting its capital expenditure via internal accruals only. The average fund based and non-fund based working capital utilization for the trailing 12 months ended August, 2019 stood at 70% and 88% respectively. Also, as on March 31, 2019, JSAW has unused line of credit of Rs 790 cr apart from free cash and cash equivalents of Rs 61.27 cr (PY: Rs 9.26 cr).

Industry outlook and prospects: The company manufactures SAW Pipes which are primarily used for transportation of oil & gas, water and slurry, Ductile Iron Pipes which are commonly used for transportation of potable water and waste-water and seamless pipes which are used in the automobiles, bearings, drilling and extraction of on-shore and off-shore oil and gas. Demand for steel pipes used in oil and natural gas production is recovering backed by stable energy prices. The long-term demand outlook for the Indian pipe industry is expected to remain steady on the back of increasing demand from the infrastructure development, water supply and sanitation projects which augurs well for JSAW being diversified players both geographically and vertically.

Analytical approach: Standalone, considering that the cash flows of JSAW shall not be utilized to provide additional financial support to any demerged entities, domestic/overseas subsidiaries/associates except to the limited extent of operational/debt servicing requirement of one of its domestic subsidiaries, JITF, until the actual receipt of funds against the arbitration award in the ongoing legal proceedings against NTPC, as stated by the management.

About CARE Ratings:

CARE Ratings commenced operations in April 1993 and over two decades, it has established itself as one of the leading credit rating agencies in India. CARE is registered with the Securities and Exchange Board of India (SEBI) and also recognized as an External Credit Assessment Institution (ECAI) by the Reserve Bank of India (RBI). CARE Ratings is proud of its rightful place in the Indian capital market built around investor confidence. CARE Ratings provides the entire spectrum of credit rating that helps the corporates to raise capital for their various requirements and assists the investors to form an informed investment decision based on the credit risk and their own risk-return expectations. Our rating and grading service offerings leverage our domain and analytical expertise backed by the methodologies congruent with the international best practices.

Disclaimer

CARE's ratings are opinions on the likelihood of timely payment of the obligations under the rated instrument and are not recommendations to sanction, renew, disburse or recall the concerned bank facilities or to buy, sell or hold any security. CARE's ratings do not convey suitability or price for the investor. CARE's ratings do not constitute an audit on the rated entity. CARE has based its ratings/outlooks on information obtained from sources believed by it to be accurate and reliable. CARE does not, however, guarantee the accuracy, adequacy or completeness of any information and is not responsible for any errors or omissions or for the results obtained from the use of such information. Most entities whose bank facilities/instruments are rated by CARE have paid a credit rating fee, based on the amount and type of bank facilities/instruments. CARE or its subsidiaries/associates may also have other commercial transactions with the entity. In case of partnership/proprietary concerns, the rating /outlook assigned by CARE is, inter-alia, based on the capital deployed by the partners/proprietor and the financial strength of the firm at present. The rating/outlook may undergo change in case of withdrawal of capital or the unsecured loans brought in by the partners/proprietor in addition to the financial performance and other relevant factors. CARE is not responsible for any errors and states that it has no financial liability whatsoever to the users of CARE's rating.

Our ratings do not factor in any rating related trigger clauses as per the terms of the facility/instrument, which may involve acceleration of payments in case of rating downgrades. However, if any such clauses are introduced and if triggered, the ratings may see volatility and sharp downgrades
