Ratings

Facilities	Amount (Rs. crore)	Rating ¹	Rating Action
Long Term Bank Facilities (Term Loan)	379.34 (reduced from 431.80)	CARE A-; Stable (Single A Minus; Outlook: Stable)	Reaffirmed
Long Term Bank Facilities (Overdraft)	28.66 (reduced from 31.83)		
Total Facilities	408.00 (Rs. Four hundred and eight crore only)		

Details of instruments/facilities in Annexure-1

Detailed Rationale & Key Rating Drivers

The reaffirmation of the ratings assigned to the of credit facilities of Khalghat Sendhwa Tollways Pvt Ltd (KSTPL) continue to derive strength from the experience of the promoters in road projects globally and continued support from sponsor i.e. Uniquet Infra Ventures Private Limited (UIPL; rated CARE AA-; Stable/ CARE A1+) in the form of bank guarantees for Debt Service Reserve Account (DSRA). The ratings also factor in the strategic location of the stretch, long operational track record of more than 8.75 years, satisfactory track record of toll collections, moderately comfortable debt coverage indicators.

The ratings strengths are partially tempered by inherent revenue risks associated with the toll-based projects, interest rate fluctuation risk and significant dependence on commercial vehicle traffic leading to higher susceptibility of revenues to the economic downturns.

Rating Sensitivities

Positive Factors

- Growth in toll revenues by 10%-15% for 2-3 years on sustained basis.

Negative Factors

- Non-creation of periodic major maintenance reserve or DSRA reserve as per sanctioned terms
- Decline in toll revenue leading to fall in DSCR levels below 1.15x
- Deterioration in credit profile of sponsor
- Non-maintenance of the stretch
- Non adherence to the covenants as per Bank Facility Agreement:
 - Non-maintenance of DSRA
 - If DSCR falls below 1.15x

Detailed description of the key rating drivers

Key Rating Strengths

Experienced promoters with strong sponsor support

KSTPL is a wholly owned subsidiary of UIPL. UIPL is a joint venture of UEM Group Berhad (a 100% subsidiary of Khazanah Nasional Berhad) through its subsidiary and IDFC Ltd to develop road projects in India. Khazanah is a strategic investment arm of Government of Malaysia to explore strategic investment opportunities in new markets. UEM is one of the largest engineering based infrastructure and services conglomerate in Malaysia, operating for almost three decades. It has several assets under management - expressways, township & property, construction and facility management across Asia, Australia, New Zealand, Canada and the Middle East. Comfort is drawn from envisaged sponsor support in case the actual O&M cost exceeds expenses envisaged. Further, the sponsor has also provided BG for DSRA and MMRA.

Strategic location of the project

The project stretch is part of NH-3 from Km 84.70 near Khalghat in Madhya Pradesh (MP) to Km 167.50 Barwani district (near the MP/ Maharashtra (MH) border). The NH-3 originates at Mumbai and traverses a distance of 1,161 Kms through the states of Maharashtra, Madhya Pradesh, Rajasthan, and Uttar Pradesh and ends at Agra. The project stretch has a good catchment of industrial units like auto ancillary, cotton, agro based etc.

Satisfactory track record of operations

The project stretch is operational for more than 8.75 years and has witnessed stable toll collections over the years. During FY19, the company has reported total toll revenue of Rs.115.15 crore in FY18 as against Rs.115.39 crore in FY18. Further,

¹Complete definition of the ratings assigned are available at www.careratings.com and other CARE publications

during 9MFY20, the toll collection stood at Rs.83.61 crore as against Rs.85.93 crore during 11MFY19. The average daily toll collection has remained stable at Rs.31.55 lakh/day in FY18 as against Rs.31.61 lakh/day in FY18 and Rs.30.40 lakh/day in 9MFY20. Commercial traffic constitutes to around 80% of the total traffic movement on the project highway. Due to economic slowdown, the project highway is not experiencing any growth in commercial traffic leading to stable toll collections.

Update on Major Maintenance

The company has initiated major maintenance activity on the project highway in Apr'18 and had completed the same in May 2019. The total cost incurred for the same was Rs. 72 cr (i.e. Rs. 21.74 lakh per lane Km) out of which Rs. 58.11 cr was incurred in FY19 and remaining Rs. 13.89 cr was incurred in FY20. KSTPL was not maintaining Major Maintenance Reserve(MMR), therefore the cost incurred has been met through the cash surplus available with the company (Rs. 43.40 cr as on March 2018) and internal accruals generated during the year.

Post the completion of MM on the project stretch in May'19, the MMR BG was released. The company plans to create MM reserve (funded or in BG) for the next MM activity planned in FY25 and FY26. Thus, timely creation of MM reserve as per sanctioned terms remains a key rating sensitivity.

Moderately comfortable debt coverage indicators

The debt coverage indicators during the tenor of the term loan are expected to be moderately comfortable. In addition, the company has DSRA BG of Rs.22.01 crore which is in line with the sanctioned terms.

Further, KSTPL needs to pay a percentage of revenue as premium to NHAI on a regular basis. However, the payment of the same is after debt servicing as per the waterfall mechanism and thus is not expected to adversely affect the debt servicing capacity of the company.

Key Rating Weaknesses

Inherent revenue risk associated with toll road projects

Being a toll-based project, KSTPL is exposed to the inherent revenue risks arising from the traffic fluctuations and annual revision of the toll rates which are indexed to the Wholesale Price Index (WPI). Also, diversion in local traffic to toll free roads/roads with lesser toll at present could lead to slightly lower toll collections in future.

As far as traffic composition is concerned, heavy commercial vehicles like trucks and multi-axle vehicles constituted around 80% of the total traffic on the project stretch. The high mix of commercial vehicle traffic indicates higher linkage to the state of economy and macroeconomic condition which can have an adverse impact during times of economic downturn.

Exposure to variations in interest rate

KSTPL shall remain exposed to variations in interest rate on the project debt as the loans are subject to interest rate resets. As a result, steep increases in the interest rate will subject the SPV to cash flow risk. Consequently, any adverse movement in the interest rate may impact the debt coverage indicators of the company

Liquidity: Adequate

The company has free cash and cash equivalents balance of Rs.2.79 crore and as on 17th January 2020. Further, it has created DSRA equal to 3 months of debt servicing in the form of BG for an amount of Rs. 22.10 crore. Apart from this the company has OD limits of Rs. 28.66 cr (reducing balance) which provides cushion in case of any cash flow mismatch. Average OD utilization remained at 4.55% for the past 7 months ending Dec'19. There was no OD utilization from Jan'19 to Mar'19.

Analytical approach: Standalone

About the Company

Khalghat Sendhwa Tollways Pvt. Ltd. (erstwhile SEW Navayuga Barwani Tollways Pvt. Ltd.) is a Special Purpose Vehicle (SPV) which was initially promoted by SEW Infrastructure Ltd. (SEW) and Navayuga Engineering Company Limited (NECL) to lay four lanes from Khalghat to Madhya Pradesh/Maharashtra border under NHDP Phase IIIA on BOT toll basis. The Concession Agreement (CA) was executed between KSTPL and National Highways Authority of India (NHAI) on April 16, 2008 for a

concession period of 18 years. The project was implemented and achieved COD on April 4, 2011. The final project cost was Rs. 786.39 crore as against envisaged project cost of Rs. 790.02 crore. In June 2016, UIPL had acquired 26% of the stake holding in KSTPL from SEW and NECL, through cash consideration of Rs. 58 crore. This has increased UIPL's shareholding in KSTPL to 100%.

Covenants of rated instrument / facility: Detailed explanation of covenants of the rated instruments/facilities is given in Annexure-3

Brief Financials (Rs. crore)	FY18 (A)	FY19 (A)
Total operating income	117.17	119.84
PBILD	94.43	89.58
PAT	6.69	-1.16
Overall gearing (times)	5.74	5.38
Interest coverage (times)	2.08	2.07

A: Audited

Status of non-cooperation with previous CRA: Not Applicable

About CARE Ratings:

CARE Ratings commenced operations in April 1993 and over two decades, it has established itself as one of the leading credit rating agencies in India. CARE is registered with the Securities and Exchange Board of India (SEBI) and also recognized as an External Credit Assessment Institution (ECAI) by the Reserve Bank of India (RBI). CARE Ratings is proud of its rightful place in the Indian capital market built around investor confidence. CARE Ratings provides the entire spectrum of credit rating that helps the corporates to raise capital for their various requirements and assists the investors to form an informed investment decision based on the credit risk and their own risk-return expectations. Our rating and grading service offerings leverage our domain and analytical expertise backed by the methodologies congruent with the international best practices.

Disclaimer

CARE's ratings are opinions on the likelihood of timely payment of the obligations under the rated instrument and are not recommendations to sanction, renew, disburse or recall the concerned bank facilities or to buy, sell or hold any security. CARE's ratings do not convey suitability or price for the investor. CARE's ratings do not constitute an audit on the rated entity. CARE has based its ratings/outlooks on information obtained from sources believed by it to be accurate and reliable. CARE does not, however, guarantee the accuracy, adequacy or completeness of any information and is not responsible for any errors or omissions or for the results obtained from the use of such information. Most entities whose bank facilities/instruments are rated by CARE have paid a credit rating fee, based on the amount and type of bank facilities/instruments. CARE or its subsidiaries/associates may also have other commercial transactions with the entity. In case of partnership/proprietary concerns, the rating /outlook assigned by CARE is, inter-alia, based on the capital deployed by the partners/proprietor and the financial strength of the firm at present. The rating/outlook may undergo change in case of withdrawal of capital or the unsecured loans brought in by the partners/proprietor in addition to the financial performance and other relevant factors. CARE is not responsible for any errors and states that it has no financial liability whatsoever to the users of CARE's rating.

Our ratings do not factor in any rating related trigger clauses as per the terms of the facility/instrument, which may involve acceleration of payments in case of rating downgrades. However, if any such clauses are introduced and if triggered, the ratings may see volatility and sharp downgrades.
