Details of instruments/facilities in Annexure-1
Detailed Rationale & Key Rating Drivers

The rating assigned to the instruments of Kogta Financial (India) Ltd (KFL) derives strength from long experience of its promoters and that of KFL in the financing industry, diversified product portfolio with major focus on commercial vehicle (CV) financing, well-managed origination, credit appraisal, collection and in-house Management Information System (MIS) along with expansion of resource base over a period of time and growing scale of operations through increased geographical diversification during the past two years-ended FY20 (refers to the period April 1 to March 31). The rating also factors KFL's ability to raise funds from Private Equity (PE) investors in recent years as reflected from the fund infusion of Rs.301.00 crore by PE investors in October 2019 which led to augmentation in its net-worth and Capital Adequacy ratio.

The rating, however, continues to remain constrained on account of its moderate earnings profile, financing relatively riskier borrower segment along with moderate seasoning of loan portfolio and its moderate asset quality. CARE also takes cognizance of the company availing the moratorium granted by its lenders as a COVID relief measure (as permitted by the Reserve Bank of India) for the interest and installment repayments on its term loan/ working capital facilities from its lenders.

Rating Sensitivity
Positive factors - Factors that could lead to positive rating action / upgrade:

- Significant growth in loan portfolio along with adequate portfolio seasoning
- Diversification in terms of geography and resource base along with sustained improvement in asset quality

Negative factors: Factors that could lead to negative rating action / downgrade:

- Deterioration in profitability – decline in ROTA below 1.5%
- ALM position shows negative mismatches exceeding RBI regulatory norms
- Significant decline in liquidity position due to impact on collection efficiency in the wake of Covid-19 pandemic situation and non-availability of fresh funding.
- Deterioration in asset quality with delinquency exceeding 5% of its Asset Under Management (AUM) (90+ dpd)
- Overall gearing exceeding 4 times

Detailed description of the key rating drivers
Key Rating Strengths

Experienced Promoters: Mr. Radha Krishan Kogta (Chairman), key promoter of the company, has vast experience of more than 17 years in the finance sector especially vehicle financing and has been instrumental in driving the growth of the company since inception. Currently, Mr. Arun Kogta (having more than a decade of experience) looks after the operations and geographical expansion activities while Mr. Varun Kogta (having more than a decade of experience) handles the Finance, IT and HR functions. Both are also involved in strategic decision making. Further, the addition of new PE investors has also benefited KFL in the form of experienced nominee directors of the PE fund joining its Board of Directors.

¹Complete definitions of the ratings assigned are available at www.careratings.com and in other CARE publications.

Comfortable capital structure on account of regular fund infusion: Over the period of three years ended March 31, 2019, KFL has consistently received funds aggregating Rs.184.25 crore from different fund houses. In FY17 & FY18, KFL received funds in the form of compulsory convertible preference shares (CCPS) of Rs.30.00 crore from IIFL Seed Venture Fund. In FY19, KFL received funds of Rs.154.25 crore in the form of CCPS from Morgan Stanley Private Equity Asia and IIFL Seed Ventures. Subsequently, in October 2019, KFL received funds of Rs.301 crore in the form of CCPS from Aditya Mauritius Limited (Rs.225.03 crore; a fund managed by Creador Advisory LLP), NHPEA Rimo Holding BV (Rs.75.97 crore; *a fund managed by Morgan Stanley Private Equity Asia*) and Rs.1.00 crore from individual investor (Mr. Prakesh Chand Jain) in KFL. CCPS has a tenor of 20 years with option of exit route through IPO and secondary sale after 4.5 years. There are no conditions attached in the recent infusion regarding mandatory buy back of shares from promoters and by company post completion of 4.5 years. Regular fund infusion led to improvement in KFL's tangible net worth to Rs.218.19 crore (as per IND-AS) as on March 31, 2019 which further increased to Rs.542.63 crore as on March 31, 2020 (as per IND-AS) and to Rs.564.59 crore as on September 30, 2020. Overall gearing of the company has improved to 1.27 times as on March 31, 2020 from 2.41 times as on March 31, 2019 (*as per IND-AS*) [*Overall gearing as per IGAAP: 1.49 times*] as per its audited financials for FY20. Further, overall CAR has improved to 58.80% as on March 31, 2020 as compared with 39.23% as on March 31, 2019 and the same stood at 54.63% as on September 30, 2020.

Long track record of operations: KFL has a long track record of two decades in the industry. Over the years, KFL has built a large customer base with active customers of 34,101 as on March 31, 2020 (*23,702 as on March 31, 2019*) leading to substantial repeat business with less effort. KFL's active customers further increased to 38,371 as on October 31, 2020. Also, it has built decent employee strength of 1,619 as on March 31, 2020 (*974 as on March 31, 2019*) including professional team of top management. Further, over a period, KFL has built good relations with Direct Selling Agents (DSA) leading to y-o-y growth in disbursements.

Primarily secured nature of business; albeit financing to relatively riskier borrower segment: KFL has secured loan portfolio of 99.80% (% of total AUM (*own book + securitized*)) as on March 31, 2020) which is secured against the vehicles (*CVs, Four Wheelers, Two Wheelers, Tractors, equipment and property mortgage*). However, short term personal loans are unsecured in nature which stood at around 0.20% of total AUM as on March 31, 2020. KFL is primarily into financing of commercial vehicle, multi utility vehicle and cars. Commercial vehicles (HCV + LCV + SCV), Tractors and Multi Utility Vehicle (MUV) accounted for nearly 42.29%, 7.74% and 9.01%, while LAP and Four Wheelers accounted for 21.09% and 19.05% of total disbursement during FY20 respectively, KFL is engaged in originating retail advances classified under priority sector and direct agricultural lending as per RBI guidelines. KFL mainly caters to the financing needs of the self-employed segment in the lower to middle income category, which is un-serviced by banking sector, at higher rate of interest. Since self-employed segment is highly susceptible to the impact of economic downturn, asset quality will remain a key monitorable.

Well managed in-house appraisal, origination and collection team along with good MIS system: KFL has developed an in-house ERP system for online monitoring of all loan accounts and generation of required MIS reports. KFL has its own in-house IT team which keeps upgrading the systems on regular basis based on necessity. KFL has an established monitoring structure for overseeing its operations including area-wise, product-wise and sales executive-wise details. It has defined credit appraisal, collection and monitoring systems including profile of clients, ticket size, KYC, etc. It has implemented specialized software with web-based browser and user level restrictions to ensure speedy access to information with data security. Credit-appraisal and final approval of loan is done by a dedicated team for ticket size below Rs.10 lakh while for above that approval is given by the top management itself.

Growing scale of operations with gradually expanding resource base: KFL's scale of operations has depicted steady growing trend; KFL's outstanding own book portfolio (as per IND-AS) has increased from Rs.671.62 crore as on March 31, 2019 to Rs.997.43 crore as on March 31, 2020. KFL's total outstanding AUM (including securitized portfolio) increased from Rs.720.37 crore as on March 31, 2019 to Rs.1068.23 crore as on March 31, 2020, mainly due to increase in disbursement by around 33.39% to Rs.748.67 crore during FY20 over FY19. Further, KFL's outstanding AUM stood at Rs.1145.22 crore as on September 30, 2020 on the back of total disbursement of Rs.167.03 crore during H1FY21. KFL made further disbursements of Rs.84.44 crore and Rs.90.54 crore in October 2020 and November 2020 respectively. KFL reported growth of 54.70% in its total income to Rs.169.38 crore in FY20 compared with Rs.109.49 crore in FY19 upon considerable growth in its AUM. KFL has gradually increased its resource base and has 13 Banks (including PSU, Private banks and SFBs) and 19 Financial Institutions (2 Debt Funds & 17 NBFCs) on board as on March 31, 2020. KFL has also raised debt through NCD issues and from covered bonds; apart from that in October 2019, KFL received funds of Rs.301 crore in the form of CCPS. Average borrowing cost of KFL continued to remain in the range of 11-13% in FY20. During 7MFY21, KFL raised Rs.267.50 crore in the form of term loans/NCDs at an average interest rate of 9.96% p.a.

Moderately diversified product portfolio: The loan portfolio of KFL is moderately diversified with CV (comprising 46.26% of total O/s portfolio (AUM) as on March 31, 2020), MUV (8.17%), Four Wheeler loans (17.60%), LAP (19.84%), Tractor & Industrial Machinery, Tool & Equipment (7.70%) and short term personal loans (0.21%). The company also finances two-wheeler loans which constituted the balance portfolio. This shields the company from slowdown in the off take of new loans as well as delinquencies in any one sector to an extent. KFL finances both used and new vehicles.

Key Rating Weaknesses

Moderate seasoning of loan portfolio: KFL's AUM has grown by around 50% in FY20 over FY19. Since a large proportion of its loan book was recently built, its seasoning is moderate and the performance of the recently built portfolio needs to be observed in the future. Moreover, since KFL is mainly into vehicle financing where the average loan tenor ranges anywhere from 30 to 36 months therefore the seasoning of portfolio is inherently low. However, KFL derives comfort from repeat lending to its existing customers.

Moderate geographical concentration: KFL has presence mainly in 8 states with major portion of loan portfolio in Rajasthan, Maharashtra and Gujarat which comprised 38%, 19.40% and 21.77% of its AUM as on September 30, 2020 as *against 39.18%, 20.66% and 21.32% as on March 31 2020 (43%, 23% and 22% as on March 31, 2019)*. KFL also has operations in Madhya Pradesh and Delhi NCR region which comprised 7.83% and 3.54% of its AUM as on September 30, 2020, as *against 7.41%, 3.18% as on March 31 2020 (6% and 1% as on March 31, 2019)*. Further, in FY19 and FY20, the company has diversified its operations to Haryana, Uttar Pradesh and Punjab which together comprised 9.14% of its AUM as on September 30, 2020 as *against 8.26% as on March 31, 2020 (4.80% as on March 31, 2019)*. KFL has expanded its operation by opening new branches during FY19 and FY20; this led to further granular distribution of portfolio across 119 branches.

Moderate asset quality and moderate earning profile: KFL's NIM has improved from 7.81% in FY19 to 8.75% in FY20, mainly on account of decline in average cost of borrowings and increase in interest income from deposits. ROTA has also increased from 1.43% in FY19 to 2.45% in FY20 mainly due to improvement in profitability; Adjusted ROTA (upon adding off balance sheet items to total assets) also improved to 2.32% in FY20 as compared to 1.29% in FY19. However, KFL's GNPA and NNPA ratio has moderated from 2.96% & 2.37% respectively in FY19 to 3.23% & 2.59% respectively in FY20. Further, in absolute terms, Gross NPA increased from Rs.19.99 crore in FY19 to Rs.32.18 crore in FY20. However Gross NPA% and Net NPA% improved to 2.61% and 2.11% as on September 30, 2020. Loan loss provisions to Average total asset stood at around 0.76% during FY20 (2.11% as on September 30, 2020) as compared with 1.63% during FY19.

Subdued Industry Outlook: Due to subdued economic environment, last three years have been challenging period for the NBFCs with moderation in growth and rising delinquencies resulting in higher provisioning thereby impacting profitability. However, comfortable capitalization levels and liquidity management continue to provide comfort to the credit profile of NBFCs despite impact on profitability. Also, with the improvement in economic environment, asset quality pressures should ease which will partially offset the impact of migration towards 90 -day NPA recognition norm.

However, the spread of the COVID-19 pandemic has led to a nation-wide lockdown which is likely to impact the overall growth and collections of NBFCs/HFCs sector. As a result, in CARE's view the credit risk profile of NBFCs/HFCs is expected to deteriorate over the medium term. Liquidity profile, resource raising ability, funding support from parent/group and exposure to vulnerable asset classes and operating profiles in terms of geographies and borrower types would be critical monitorable factors in the NBFCs/HFCs sector.

Liquidity: Adequate

Liquidity of KFL as on March 31, 2020 has been adequate along with average working capital limit utilization remaining at 27.74% for 12 months ending November 30, 2020; further KFL has comfortable ALM with no cumulative mismatch in any of the time buckets up-to 3 years as on September 30, 2020. Its liquidity has been aided by fund infusion in the form of CCPS of Rs.301.00 crore in October 2019. KFL has also raised funds through NCD issues, covered bonds, securitization and direct assignment during FY20. As per KFL's management, it had free cash and bank balance (including free Fixed deposits) and liquid investments of Rs.81.09 crore and unutilized working capital limits of Rs.39.82 crore (including Overdraft against Fixed deposits) as on November 30, 2020 against its debt repayment obligation of Rs.78.75 crore in next 3 months (December 01, 2020 to February 28, 2021) and Rs.265.31 crore in next one year (December 01, 2020 to November 30, 2021). KFL has raised funds of around Rs.305.50 crore in 7MFY21 (Upto October 31, 2020) under the normal sanctions, TLTRO, PCG scheme and securitization.

Impact of Covid-19: Operations of KFL had been affected to a certain extent due to COVID-19 pandemic. KFL had almost stopped disbursements and had disbursed only Rs.1.75 crore during April-May 2020, however from June 2020 onwards disbursements were restarted and the same has grown on a month-on-month basis. KFL has disbursed Rs.54.99 crore, Rs.84.44 crore and Rs.90.54 crore in September, October and November 2020 respectively. Further, monthly collection

efficiency (including monthly demand under moratorium including pre-payments) which had dipped to 18.78% in April 2020 has also gradually improved to 81.68% in July 2020 and further to 105.46% in October 2020. Further, nearly 73% of its AUM (of total AUM as on April 30, 2020) was under moratorium which declined to 42% as on August 31, 2020. KFL had availed moratorium till May 2020 from its bankers and financial institutions under the RBI's COVID 19 relief package. KFL has also simultaneously provided the moratorium to its clients based on Opt-out policy to everyone.

About CARE Ratings:

CARE Ratings commenced operations in April 1993 and over two decades, it has established itself as one of the leading credit rating agencies in India. CARE is registered with the Securities and Exchange Board of India (SEBI) and also recognized as an External Credit Assessment Institution (ECAI) by the Reserve Bank of India (RBI). CARE Ratings is proud of its rightful place in the Indian capital market built around investor confidence. CARE Ratings provides the entire spectrum of credit rating that helps the corporates to raise capital for their various requirements and assists the investors to form an informed investment decision based on the credit risk and their own risk-return expectations. Our rating and grading service offerings leverage our domain and analytical expertise backed by the methodologies congruent with the international best practices.

Disclaimer

CARE's ratings are opinions on the likelihood of timely payment of the obligations under the rated instrument and are not recommendations to sanction, renew, disburse or recall the concerned bank facilities or to buy, sell or hold any security. CARE's ratings do not convey suitability or price for the investor. CARE's ratings do not constitute an audit on the rated entity. CARE has based its ratings/outlooks on information obtained from sources believed by it to be accurate and reliable. CARE does not, however, guarantee the accuracy, adequacy or completeness of any information and is not responsible for any errors or omissions or for the results obtained from the use of such information. Most entities whose bank facilities/instruments are rated by CARE have paid a credit rating fee, based on the amount and type of bank facilities/instruments. CARE or its subsidiaries/associates may also have other commercial transactions with the entity. In case of partnership/proprietary concerns, the rating /outlook assigned by CARE is, inter-alia, based on the capital deployed by the partners/proprietor and the financial strength of the firm at present. The rating/outlook may undergo change in case of withdrawal of capital or the unsecured loans brought in by the partners/proprietor in addition to the financial performance and other relevant factors. CARE is not responsible for any errors and states that it has no financial liability whatsoever to the users of CARE's rating.

Our ratings do not factor in any rating related trigger clauses as per the terms of the facility/instrument, which may involve acceleration of payments in case of rating downgrades. However, if any such clauses are introduced and if triggered, the ratings may see volatility and sharp downgrades.
