<b>Total</b>	<b>13.00 (Rs. Thirteen crore only)</b>		

*Details of instruments/facilities in Annexure-1*

**Detailed Rationale & Key Rating Drivers**

CARE has been seeking information incl. No Default Statement from MSR India Limited (MSR) to monitor the rating vide e-mail communications dated January 31, 2020 to April 16, 2020 and numerous phone calls. However, despite our repeated requests, the company has not provided the requisite information for monitoring the ratings. In line with the extant SEBI guidelines, CARE has reviewed the rating on the basis of the best available information which however, in CARE's opinion is not sufficient to arrive at a fair rating. The rating on MSR India Limited's (MSR) bank facilities will now be denoted as **CARE BB-, Stable/ CARE A4; ISSUER NOT COOPERATING\***.

***Users of this rating (including investors, lenders and the public at large) are hence requested to exercise caution while using the above rating(s).***

The revision in long term ratings is on account of subdued financial performance of the company during 9MFY20 (FY refers to the period from April 01 to March 31)

**Detailed description of the key rating drivers**

*At the time of last surveillance on September 16, 2019 the following were the rating strengths and weaknesses (updated from information available on BSE):*

**Key Rating Weakness*****Decline in total operating income and net profits in Q3FY20 and 9MFY20***

The Total operating income declined during Q3FY20 vis-a-vis Q2FY20 by 16.31% and by 78.15% respectively vis-a-vis Q3FY19. Further, there was significant decline of 72.20% during 9MFY20 as compared to 9MFY19 because of subdued performance of copper bottle sales marred by increasing competition. Also there has been a significant reduction in PAT levels during Q3FY20 by 68.18% vis-a-vis Q2FY20 and by 90.91% vis-a-vis Q3FY19. Decline in PAT levels during 9MFY20 was by 78.43% vis-a-vis 9MFY19 because of higher capital charge. However, the PBILDT Margin however witnessed significant improvement during 9MFY20 and was around 12.90% as against 3.20% during 9MFY19.

***Moderate capital structure and debt coverage indicators during FY19***

The capital structure of the company, although deteriorated as on March 31, 2019 it remained comfortable with overall gearing ratio at 1.00x as compared to 0.36x as on March 31, 2018. The deterioration in overall gearing was on account of increase in total debt levels in FY19 as compared to FY18. Further, total debt to GCA has deteriorated significantly from 2.54x during FY18 to 9.42x during FY19 due to increase in working capital borrowings. Also, interest coverage declined in FY19 due to increase in interest expense during the year.

***Elongated operating cycle in FY19***

The working capital cycle of the company deteriorated from 27 days in FY18 to 61 days in FY19 mainly due to high levels of inventory as on March 31, 2019 comprising of FMCG inventory and RM for copper bottles that the company procured in bulk as it had envisaged that the copper prices would rise from April 2019. Further, the company had no significant reliance on creditors during the year as its purchases were majorly on cash thereby shrinking the average creditor days to 14 in FY19 (FY18: 38 days) which also led to stretched operating cycle.

### **Industry Outlook- Negative over short to medium term**

The FMCG Industry across the globe is experiencing strong turbulence after the outbreak of global pandemic, Covid-19. The industry across the world is experiencing a sudden steep demand for essential products. Essential products are anticipated to recover the loss incurred by the FMCG Industry up to some extent. However, stringent lockdowns, transportation issues, stock piling and lack of labors for efficient operations are some of the key challenges that most FMCG companies are facing during the outbreak of global pandemic, Covid-19. Therefore, the overall FMCG industry is anticipated to incur heavy loss post Covid-19 outbreak. However, the industry is expected to mitigate this loss up to some extent by focusing only on manufacturing of key essential products, keeping in mind different economic factors such as government restrictions related to lockdown, government relief packages and intensity of Covid-19 outbreak across the globe.

### **Key Rating Strengths**

#### ***Experienced promoters & management team***

The company was initially promoted by Mr. Srinivas Reddy and subsequently taken over by Mr. K.V. Rajasekhar Reddy. Mr. K.V. Rajasekhar Reddy is a Mechanical Engineer with an overall experience of five years. He is ably supported by Mr. Malla Reddy who is a doctorate in Corporate Social Responsibility and expertise's in the field of marketing. Furthermore, the management team comprises of industry professionals having significant experience in the related domain of business operations.

#### ***Competitive Advantage with brand recall***

Considering the harmful effecting of usage of plastic and at the same time benefits of using copper utensils is gradually gaining its predominance. Understanding the business opportunity, MSR ventured into designing of a seamless copper water bottle which is marketed under the brand '**Dr. Copper**' along with various health benefits of using it. The company has a competitive advantage as there are very few players in the unorganized market and no competitor in the organized market. Further, the company developed a strong brand image through print media and TV advertisements with brand recall for 'Dr. Copper'. The company has also endorsed a film star for branding and promotion of copper water bottles.

#### ***Liquidity-Stretched***

Liquidity is marked by tightly matched accruals to repayment obligations, highly utilized bank limits and modest cash balance. Its average working capital utilization remained high at more than 90% for the last twelve months period ended August, 2019. The company had cash and bank balance to the tune of Rs. 0.10 crore as on March 31, 2019.

**Analytical approach:** Standalone

### About CARE Ratings:

CARE Ratings commenced operations in April 1993 and over two decades, it has established itself as one of the leading credit rating agencies in India. CARE is registered with the Securities and Exchange Board of India (SEBI) and also recognized as an External Credit Assessment Institution (ECAI) by the Reserve Bank of India (RBI). CARE Ratings is proud of its rightful place in the Indian capital market built around investor confidence. CARE Ratings provides the entire spectrum of credit rating that helps the corporates to raise capital for their various requirements and assists the investors to form an informed investment decision based on the credit risk and their own risk-return expectations. Our rating and grading service offerings leverage our domain and analytical expertise backed by the methodologies congruent with the international best practices.

### Disclaimer

CARE's ratings are opinions on the likelihood of timely payment of the obligations under the rated instrument and are not recommendations to sanction, renew, disburse or recall the concerned bank facilities or to buy, sell or hold any security. CARE's ratings do not convey suitability or price for the investor. CARE's ratings do not constitute an audit on the rated entity. CARE has based its ratings/outlooks on information obtained from sources believed by it to be accurate and reliable. CARE does not, however, guarantee the accuracy, adequacy or completeness of any information and is not responsible for any errors or omissions or for the results obtained from the use of such information. Most entities whose bank facilities/instruments are rated by CARE have paid a credit rating fee, based on the amount and type of bank facilities/instruments. CARE or its subsidiaries/associates may also have other commercial transactions with the entity. In case of partnership/proprietary concerns, the rating /outlook assigned by CARE is, inter-alia, based on the capital deployed by the partners/proprietor and the financial strength of the firm at present. The rating/outlook may undergo change in case of withdrawal of capital or the unsecured loans brought in by the partners/proprietor in addition to the financial performance and other relevant factors. CARE is not responsible for any errors and states that it has no financial liability whatsoever to the users of CARE's rating.

Our ratings do not factor in any rating related trigger clauses as per the terms of the facility/instrument, which may involve acceleration of payments in case of rating downgrades. However, if any such clauses are introduced and if triggered, the ratings may see volatility and sharp downgrades.
