*Details of instruments/facilities in Annexure-1*

### Detailed Rationale and Key Rating Drivers

CARE has revised the outstanding ratings assigned to the bank facilities of Nila Infrastructures Limited (NILA) from '**CARE BBB+; Stable/ CARE A2' (Triple B Plus; Outlook: Stable/ CARE A Two) to CARE BBB; Stable/ CARE A3+ (Triple B; Outlook: Stable/ A Three Plus)** and withdrawn subsequently with immediate effect. The above action has been taken at the request of NILA and the 'No Objection Certificate' received from the banks that had extended the facilities rated by CARE.

The revision in the ratings assigned to the bank facilities of NILA takes into account significant increase in working capital intensity of operations and its exposure towards JVs (Joint Venture) and SPVs (Special Purpose Vehicle) in the form of investments and loans and advances, which resulted in elongation of its operating cycle and higher than envisaged total debt as on March 31, 2019, which further increased as on December 31, 2019.

The ratings continue to derive strength from the experienced promoters, established track record of operations of the company in the construction industry, hybrid model of executing projects under EPC, EPC+PPP & PPP mode and moderate order book position of the company. The ratings also takes into account NILA's moderate profitability (albeit declined in FY19 and 9MFY20), capital structure and debt coverage indicators.

The ratings, however, continue to remain constrained on account of NILA's moderate scale of operations with high geographical concentration, competitive nature of the industry and exposure to risk associated with slum rehabilitation projects as well as change in government policy regarding Public Private Partnership (PPP) projects.

### Detailed description of the key rating drivers

**Increase in working capital intensity of operations:** Working capital intensity of NILA's operations increased during FY19 (refers to the period April 01 to March 31) and 9MFY20 (refers to the period April 01 to December 31) on account of consistent increase in the value of LDR/ TDR (land development rights/ Transferable development rights) to Rs.39.78 crore (PY end Rs.18.82 crore), increase in receivables (including unbilled revenue) to Rs.80.03 crore (PY: Rs. 60.37 crore) and high inventory holding of land as well as its exposure to JVs and SPVs in the form of investments and loans and advances as on March 31, 2019. Overall requirement grew further during 9MFY20 on account of further increase in the investment in JVs and SPVs (to Rs.68.47 crore) and receivables (to Rs.127.63 crore) as on December 31, 2019.

On account of above, NILA reported negative cash flow from operation of Rs.16.23 crore (PY Rs.+6.52 crore), elongation of its working capital cycle to 164 days in FY19 (156 days in FY18) and gross current assets days at 271 days in FY19 (PY 257 days) along with moderation in its current as well as quick ratio. Average fund based working capital utilization remained moderate at 77.71% for past 12 months ended November 30, 2019. NILA had cash and bank balance of Rs.0.89 crore as on March 31, 2019 (excluding margin money of Rs.8.72 crore) as compared to Rs.5.80 crore (excluding margin money of Rs.

<sup>1</sup>Complete definitions of the ratings assigned are available at [www.careratings.com](http://www.careratings.com) and in other CARE publications.

6.77 crore) as on March 31, 2018. However, NILA has taken steps to improve its liquidity and reduce its debt by liquidating LDR/TDR of Rs.31.55 crore and land of Rs.34.72 crore in H2FY20.

#### Key Rating Strength

**Experienced promoters and established track record of operation of the company:** NILA is a part of Sambhaav group, promoted by Mr. Manoj B. Vadodaria and Mr. Kiran B. Vadodaria. Mr Manoj Vadodaria, chairman and managing director of the company, has a rich experience of over four decades in various entrepreneurial ventures. Mr Deep Vadodaria, Chief operating officer, has more than a decade experience in the infrastructure and real estate industry. Promoters are well supported by professional and experienced tier II management personnel.

**Hybrid business model of project execution:** NILA has a hybrid project execution model which includes project on engineering, procurement and construction (EPC), Public Private Partnership (PPP) and EPC+PPP mode. EPC projects are normally fixed price contract, while EPC+PPP mode is more prominent for development of affordable housing where remuneration is in the form of fixed contract value plus 25% balance vacant land which is generally transferred to the company at the end of the contract. Under PPP mode, entire cost of project execution is funded by the company and remuneration is in the form of transferrable development rights (TDR)/ land development rights (LDR).

**Moderate order book position:** NILA has order book of Rs.577.48 crore (2.54x of TOI of FY19) as on December 31, 2019, reflecting moderate revenue visibility. The order book is diversified with civil urban infrastructure (including office building, industrial parks etc.) constituting around 46% of its order book, affordable housing (including slum rehabilitation) at 25% and balance orders are from private parties.

**Moderate profitability and capital structure:** NILA's profitability remained stable during FY19 with PBILDT and PAT margin of 17.43% (18.49% in FY18) and 9.77% (10.46% in FY18) respectively. The moderation in profitability during FY19 was primarily on account of change in proportion of PPP and EPC projects in TOI. As per provisional results for 9MFY20, NILA reported TOI of Rs. 174.52 crore with PBILDT and PAT margin of 18.44% and 8.52% respectively.

Despite increase in debt to fund increase in working capital intensity, overall gearing (incl. mobilization advances) remained moderate at 1.06x as on March 31, 2019 (1.06x as on March 31, 2018).

#### Key Rating Weaknesses

**Moderate scale of operations:** Nila continues to operate on a moderate base; During FY19, the company reported Total operating income (TOI) remained stable with a marginal growth of 5% to Rs.227.01 crore (PY: Rs. 215.51 crore). Furthermore, its operations remained geographically concentrated with 88% of orders from Gujarat state and 12% from Rajasthan.

**Decline in debt coverage indicators:** The increase in working capital intensity in operations was bridged through debt and consequently NILA's debt coverage indicators declined in FY19 and 9MFY20. Interest coverage (PBILDT/ Interest) and Total debt/EBIDTA declined to 3.08x (3.39x in FY18) and 3.35x (2.88x in FY18) respectively in FY19. The coverage ratios declined further during 9MFY20 on account of increase in interest cost and higher total debt as on December 31, 2019.

However, NILA has utilized proceeds received from the sale of LDR/TDR and land for reducing its debt and meet incremental working capital requirements.

**Exposure towards JVs and SPVs in the form of investments and loans and advances:** NILA had extended significant loans and advances to related party and others aggregating Rs.85.01 crore as on December 31, 2019 (Rs.65.61 crore as on March 31, 2019). However, the advances are interest-bearing and the company received interest of Rs.6.67 crore in FY19 (Rs.6.09 crore in FY18).

**Geographically concentrated order book:** Operations of NILA is geographically concentrated in the state of Gujarat with 88% orders to be executed in Gujarat, and balance 12% in Rajasthan as per outstanding order book as on December 31, 2019. The concentration of major order book in two states exposes NILA's growth prospects to the macro and socio-political upheavals in the regions. However, NILA has an established track record in executing orders in these states and also benefits from shared resources due to proximity of projects.

**Competitive nature of the industry and risk associated with slum rehabilitation projects:** The construction/infrastructure industry is highly fragmented and competitive in nature with presence of many mid and large sized players. It is tender driven and projects are allotted by competitive bidding which exerts pressure on the profitability margin of the players. Further, slum rehabilitation project have their own set of risk and challenges starting from identification of beneficiaries, obtaining the various approvals in time bound manner, land scarcity, timely construction, quality of housing, dispute redressal mechanism, rising cost, and availability of prime space to sell. Being of a PPP nature and funds are being deployed by local state/central government-semi governmental agencies, there is risk of any significant change in government policy and/or budgetary allocation. Further, remuneration is in terms of LDR/TDR for PPP projects and in terms of the land for EPC+PPP project which makes company susceptible to any change in state/central governmental policy regarding the same.

**About Company**

NILA was incorporated on February 26, 1990 as a private limited company under the name of Nila Builders Pvt Ltd. Company had started as real estate developer in Gujarat and has a long track record of developing and marketing own projects. It forayed into the infrastructure space in 2008 and over the last few years, it has shifted its focus in executing civic urban infrastructure & affordable housing projects as a contractor. NILA is registered as an approved contractor for Special Category-I Building Class, Special Category Building R&B & AA class R&B with the Government of Gujarat, Roads and Buildings Department. NILA is a part of the Sambhaav Group from Ahmedabad, Gujarat.

**Demerger of real estate business to Nila Spaces Limited (NSL)**

Pursuant to the approval of the NCLT dated May 9, 2018 for the scheme of demerger between NILA and NSL, the assets and liability pertaining to the real estate undertaking, were transferred to and vested in NSL w.e.f the appointed date viz. April 1, 2017 and June 15, 2018 was a record date for the allotment of the 1 fully paid-up equity share of Rs. 1 each of NSL to the shareholder of NILA, having 1 equity share of face value of Rs.1. Real estate business formed 12.70% of TOI of Rs.225.10 crore (pre de-merger) and 34.54% of PAT of Rs.22.84 crore (pre de-merger) for FY17. Further, net assets of Rs.115.47 crore and total debt of Rs.65.84 crore as on March 31, 2017 were transferred to real estate undertaking. Demerger had resulted in transfer of significant amount of loans advances along with land inventory of the real estate business from NILA.

### About CARE Ratings:

CARE Ratings commenced operations in April 1993 and over two decades, it has established itself as one of the leading credit rating agencies in India. CARE is registered with the Securities and Exchange Board of India (SEBI) and also recognized as an External Credit Assessment Institution (ECAI) by the Reserve Bank of India (RBI). CARE Ratings is proud of its rightful place in the Indian capital market built around investor confidence. CARE Ratings provides the entire spectrum of credit rating that helps the corporates to raise capital for their various requirements and assists the investors to form an informed investment decision based on the credit risk and their own risk-return expectations. Our rating and grading service offerings leverage our domain and analytical expertise backed by the methodologies congruent with the international best practices.

#### Disclaimer

CARE's ratings are opinions on the likelihood of timely payment of the obligations under the rated instrument and are not recommendations to sanction, renew, disburse or recall the concerned bank facilities or to buy, sell or hold any security. CARE's ratings do not convey suitability or price for the investor. CARE's ratings do not constitute an audit on the rated entity. CARE has based its ratings/outlooks on information obtained from sources believed by it to be accurate and reliable. CARE does not, however, guarantee the accuracy, adequacy or completeness of any information and is not responsible for any errors or omissions or for the results obtained from the use of such information. Most entities whose bank facilities/instruments are rated by CARE have paid a credit rating fee, based on the amount and type of bank facilities/instruments. CARE or its subsidiaries/associates may also have other commercial transactions with the entity. In case of partnership/proprietary concerns, the rating /outlook assigned by CARE is, inter-alia, based on the capital deployed by the partners/proprietor and the financial strength of the firm at present. The rating/outlook may undergo change in case of withdrawal of capital or the unsecured loans brought in by the partners/proprietor in addition to the financial performance and other relevant factors. CARE is not responsible for any errors and states that it has no financial liability whatsoever to the users of CARE's rating.

Our ratings do not factor in any rating related trigger clauses as per the terms of the facility/instrument, which may involve acceleration of payments in case of rating downgrades. However, if any such clauses are introduced and if triggered, the ratings may see volatility and sharp downgrades.
