

## Optiemus Infracom Limited

August 26, 2019

### Ratings

Facilities	Amount (Rs. crore)	Rating <sup>1</sup>	Rating Action
Long term bank facilities	231.50	<b>CARE BB+; Stable (Double B Plus; Outlook: Stable)</b>	<b>Revised from CARE BBB-; Negative (Triple B Minus; Outlook: Negative)</b>
<b>Total Facilities</b>	<b>231.50 (Rs. Two hundred thirty one crore and fifty lacs only)</b>		

*Details of instruments/facilities in Annexure-1*

### Detailed Rationale & Key Rating Drivers

CARE has taken a view on the combined financial profile of the Optiemus Group of companies which include: Optiemus Infracom Limited (OIL), Optiemus Electronics Limited (OEL), MPS Telecom Retail Private Limited (MTRPL), Telecare Network India Private Limited (TNIPL), GDN Enterprises Private Limited (GDN) and International Value Retail Private Limited (IVR). All these companies are in related businesses, and have strong business linkages and common ownership and management.

The revision in the rating assigned to the bank facilities of Optiemus Infracom Limited factors in group's declining trend in scale of operations during FY19 and Q1FY20. Optiemus Infracom Limited (OIL) is the flagship company of Optiemus group and contributes to about one third of the revenue of the group and majority of the profitability. During Q1FY20, the company reported loss at PBILDT of Rs. 5.99 crore and net loss of Rs. 9.35 crore. The rating continues to be constrained on account of exposure to intense competition, risk associated with renewal of long-term contracts and lower than envisaged ramp up of Blackberry business along with significant decline in distribution business segment.

The rating, however, derives strength from experienced promoter and professional management team, established market position with operational synergies on account of presence in complete value chain of mobile handsets, wide distribution network.

Going forward, acceptability of the Blackberry brand and achievability of envisaged volumes, improvement in profitability while maintaining the capital structure would be the key rating sensitivities.

### Detailed description of the key rating drivers

#### Key Rating Weakness

#### Significant deterioration in Q1FY20 financial of flagship company - OIL

The overall gearing of OIL stood at 0.75x as on March 31, 2019 (PY: 0.77x). The total income of the Optiemus Group has witnessed decline during past three years. OIL being a flagship company of the group and a major contributor to the group's revenue as well as profitability and has continuously witnessed a decline on the account of decline in sales of HTC and Samsung and delay in launch of Blackberry's models. The decline in the revenue for the company is 30.02% in FY19. The Company reported a PBILDT loss of Rs. 5.99 crore in Q1FY20 as against profit of Rs. 7.32 crore in Q4FY19. The Company reported a net loss of Rs. 9.35 crore in Q1FY20 as against profit of Rs. 7.32 crore in Q4FY19.

During 9MFY19, the group has reported total income of Rs.1229 crore and PBILDT of Rs.29.55 crore (PBILDT margin of 2.40%), thereby indicating further decline in the scale of operations for the group. The lower ramp up of Blackberry sales has impacted OIL sales. The PBILDT margin has declined from 4.32% during FY18 to 2.40% during 9MFY19 due to delayed launch of Blackberry phones which led to lower revenue as against higher promotional advertisement. The other group entities also witnessed pressure on their profitability due to decline in scale of operations leading to non-absorption of fixed cost. In order to support the operations, the promoters have infused around Rs.25 crore funds in the group as on March 25, 2019. The promoters have further infused Rs.10 crore during FY20.

OIL is in the process to monetise its commercial asset which is expected to improve its overall gearing as the company plans to reduce the debt with sale proceeds. The same is expected to be concluded by Q2-Q3FY20.

#### Lower than envisaged ramp up of Blackberry business during 9MFY19

The group had envisaged significant upside from the Blackberry business segment both in terms of income and profitability. The company had factored in around Rs.400 crore of income from this segment during FY18 going to Rs.1000 crore by FY20. As against the plan, the company derived revenue of Rs.352 crore from Blackberry sales during FY18. The income from Blackberry segment has reduced further to Rs.192 crore during 9MFY19. Furthermore, due to delayed launch of couple of its handsets, there was a corresponding mismatch in the sales and associated costs leading to reduction in profitability. OIL has signed an exclusive agreement for designing, manufacturing and distribution of

<sup>1</sup>Complete definition of the ratings assigned are available at [www.careratings.com](http://www.careratings.com) and other CARE publications

Blackberry Handsets in India, Sri Lanka, Nepal and Bangladesh which is expected to provide a revenue upside to the company in next couple of years. Though, the ramp up from Blackberry sales has not remained the way it was envisaged earlier. Going forward, successful ramp up of Blackberry sales would be crucial for the company and remains to be seen.

#### **Renewal of agreement with mobile brands would remain a concern**

Optiemus group has been engaged in the distribution of Samsung handsets since January 2007. The distributorship is guided by an agreement between the two parties. On the expiry of the term a fresh agreement shall be signed between the two parties based on mutual consent. Though, over the years the dependence of the group on Samsung as a source of revenue has come down and therefore the business continuation risk is mitigated to a large extent. The renewal of the agreement with Samsung is due in FY20. Similarly, the agreement with Blackberry is a 10 year agreement (five years extendable to another five years) and its successful renewal would be crucial in future.

#### **Exposure to intense competition in mobile phone industry**

The Optiemus Group has exposed to the intense competition in the mobile handset industry. As the group has presence in manufacturing and distribution of smart and feature phones its fortunes are linked to the brands it caters. The company is currently dealing in brands such as Samsung, HTC and Zen.

#### **Key Rating Strengths**

##### **Experienced promoter and Professional Management team**

Mr. Ashok Gupta, the chairman of the Optiemus has more than two decades of experience in the field of trading and mobile handsets distribution. Under his leadership the company has been engaged in the distribution of Samsung mobile phones since January 2007. Prior to this, the company, since October 2001, was engaged in the distribution of Nokia handsets. Mr. Gupta has also served as the secretary of the 'Indian Cellular Association' (ICA), an apex body representing the mobile brands in India.

##### **Established market position and synergy from operations**

The Optiemus Group over the year has established itself as a leading player in the domestic mobile handset distribution industry. The group through its various group companies has presence in the complete value chain starting from assembling, distribution and finally retail sales of mobile phones. The group is able to enjoy operational synergies as it is present across the value chain.

##### **Wide distribution network**

The Optiemus group has been engaged in the business of mobile distribution for last two decades and thus has built a wide pan-India distribution network. The Group started distribution of Nokia handsets in the Delhi General Trade market. Gradually, they moved towards the organized trade market with Samsung. The group operates with a vast spread of 27 Regional branches, presence with close to 650 Distributors (Micro and Macro Distributors), more than 10,000 retail partners (in the general trade segment) and more than 700 service centres.

**Liquidity:** The liquidity profile remained moderate marked by working capital utilisation of around 85% during last 12 months ending July, 2019. Cash balance as on March 31, 2019 stood at Rs.16.54 crore (OIL standalone)

**Analytical approach:** Combined financials of the Optiemus Group of companies which include: Optiemus Infracom Limited, Optiemus Electronics Limited, MPS Telecom Retail Private Limited, Teleecare Network India Private Limited, GDN Enterprises Private Limited and International Value Retail Private Limited. All these companies are in related businesses, and have strong business linkages and common ownership and management.

**About CARE Ratings:**

CARE Ratings commenced operations in April 1993 and over two decades, it has established itself as one of the leading credit rating agencies in India. CARE is registered with the Securities and Exchange Board of India (SEBI) and also recognized as an External Credit Assessment Institution (ECAI) by the Reserve Bank of India (RBI). CARE Ratings is proud of its rightful place in the Indian capital market built around investor confidence. CARE Ratings provides the entire spectrum of credit rating that helps the corporates to raise capital for their various requirements and assists the investors to form an informed investment decision based on the credit risk and their own risk-return expectations. Our rating and grading service offerings leverage our domain and analytical expertise backed by the methodologies congruent with the international best practices.

**Disclaimer**

CARE's ratings are opinions on the likelihood of timely payment of the obligations under the rated instrument and are not recommendations to sanction, renew, disburse or recall the concerned bank facilities or to buy, sell or hold any security. CARE's ratings do not convey suitability or price for the investor. CARE's ratings do not constitute an audit on the rated entity. CARE has based its ratings/outlooks on information obtained from sources believed by it to be accurate and reliable. CARE does not, however, guarantee the accuracy, adequacy or completeness of any information and is not responsible for any errors or omissions or for the results obtained from the use of such information. Most entities whose bank facilities/instruments are rated by CARE have paid a credit rating fee, based on the amount and type of bank facilities/instruments. CARE or its subsidiaries/associates may also have other commercial transactions with the entity. In case of partnership/proprietary concerns, the rating /outlook assigned by CARE is, inter-alia, based on the capital deployed by the partners/proprietor and the financial strength of the firm at present. The rating/outlook may undergo change in case of withdrawal of capital or the unsecured loans brought in by the partners/proprietor in addition to the financial performance and other relevant factors. CARE is not responsible for any errors and states that it has no financial liability whatsoever to the users of CARE's rating.

Our ratings do not factor in any rating related trigger clauses as per the terms of the facility/instrument, which may involve acceleration of payments in case of rating downgrades. However, if any such clauses are introduced and if triggered, the ratings may see volatility and sharp downgrades.
