### Detailed Rationale & Key Rating Drivers

The ratings assigned to bank facilities of Repco Home Finance Limited (RHFL) continues to factor in the established track-record of the company in south India, especially in the tier II & tier III cities, experienced senior management team, comfortable capital adequacy, healthy profitability and fairly diversified resource profile. The ratings are constrained by the regional concentration of the loan portfolio, moderate asset quality parameters and the relatively higher exposure to certain riskier borrower segments.

The ability of RHFL to grow its advances portfolio with a focus on geographical diversification, while improving the asset quality and profitability amidst the competitive industry scenario is the key rating sensitivity.

### Detailed description of the key rating drivers

#### Key Rating Strengths

#### Well-qualified & diversified board of directors supported by an experienced senior management team

The board of directors of RHFL is well diversified and consists of highly qualified directors, having experience in a wide spectrum of activities ranging from finance, regulatory background, banks and the government service. The managing director, Mr Yashpal Gupta, has an aggregate experience of over 30 years primarily in the banking sector. RHFL's senior management comprises professionals with significant experience in related fields and is supported by a pool of trained personnel at the head office and branch offices.

#### Comfortable capitalisation

RHFL has been maintaining comfortable capital adequacy ratio (CAR) at over 20%. RHFL's CAR stood at 23.04% as on March 31, 2018 (PY: 21.25%) as against the minimum regulatory requirement of 12%. As on December 31, 2018, CAR stood at 24.20%.

RHFL is comfortably placed in terms of capital requirements to grow the business in the medium term. It may be noted that the entire CAR is made up of Tier I capital, thereby providing cushion to raise Tier II capital, if required. The overall gearing was 6.13x times as on March 31, 2018 compared to 6.65x as on March 31, 2017.

#### Comfortable liquidity position

RHFL's liquidity position is characterised by absence of any cumulative negative mismatches in the various time buckets in its ALM (including committed lines of credit) as on December 31, 2018. As on March 27, 2019 RHFL has unavailed lines of credit of Rs. 1,295 crore.

#### Moderate growth in loan portfolio during FY18

During FY18, loan portfolio grew by 10% from Rs. 8,940 crore as on March 31, 2017 to Rs. 9,857 crore as on March 31, 2018 whereas disbursements grew by 6% y-o-y during FY18. Disbursements and portfolio witnessed moderate growth because of tepid growth of 6% in Tamil Nadu. Portfolio witnessed slower growth due to ban on registration of unapproved property by Madras high court and scarcity of sand in Tamil Nadu. With improvement in the availability of sand and regularisation on registration of unapproved layouts, the disbursement started picking up from Q3FY18.

During 9MFY19, the portfolio grew to Rs. 10,667 crore as on December 31, 2018 from Rs. 9,490 crore as on December 31, 2017 whereas disbursements grew by 13% from Rs.1,958 crore in 9MFY18 to Rs.2,214 crore in 9MFY19.

#### Healthy profitability

Yield on advances has declined from 12.19% in FY17 to 11.46% in FY18 in line with decrease in cost of borrowings from 9.17% in FY17 to 8.26% in FY18. Aided by decrease in cost of borrowings, NIM marginally improved to 4.51% in FY18 from 4.38% in FY17. Operating expenses to average of total assets remained stable at 0.82% in FY18 against 0.80% in FY17. Credit costs slightly increased from 0.55% in FY17 to 0.66% in FY18. ROTA stood at 2.17% in FY18 (PY: 2.17%).

<sup>1</sup>Complete definitions of the ratings assigned are available at [www.careratings.com](http://www.careratings.com) and in other CARE publications

During 9MFY19, the company reported a PAT of Rs.183 crore on a total income of Rs.887 crore as against PAT of Rs.168 crore on a total income of Rs.835 crore in 9MFY18.

#### ***Fairly diversified resource profile***

RHFL had been primarily resorting to funds in the form of loans from banks, refinance from NHB, and borrowings from Repco Bank in order to support its growth in assets base. Borrowings from banks, NCDs and NHB refinance stood at 83%, 8%, and 7% respectively as on December 31, 2018.

#### ***Key rating weaknesses***

##### ***Regional concentration of operations***

The company has been expanding its geographical presence, in the Tier II and Tier III cities. The number of branches and satellite units increased from 157 (including 32 satellite units) as on March 31, 2017 to 163 (including 23 satellite units) as on June 30, 2018. RHFL's portfolio is concentrated in five south Indian states constituting around 87% (PY: 89%) as on March 31, 2018. Tamil Nadu (TN) accounted for about 60% (PY:61%) of the total portfolio outstanding as on March 31, 2018 followed by Karnataka (13%), Maharashtra (7%), Andhra Pradesh(7%), Telangana (4%), Kerala (4%), Gujarat (2.48%) and the rest from Pondicherry, Jharkhand, Orissa, West Bengal and Madhya Pradesh. Although the company has taken initiatives to improve its regional diversification by opening new branches in other states, RHFL's business is expected to remain concentrated in the South India states, particularly TN over the medium term.

##### ***Moderate Asset Quality***

RHFL has reported GNPA and NNPA of 2.87% and 1.29% as on March 31, 2018 as against 2.60% and 1.39% as on March 31, 2017. The moderation in the asset quality is mainly due to slippages from few large ticket accounts in non-housing portfolio post demonetisation.

RHFL has set up a special recovery team at HO with designated people for collections at all branches. Also RHFL initiated SARFAESI process to recover these loans, and these loans are in various stages of recovery. Though the NPAs are high, ultimate credit losses are minimal since the company's inception as the loans are backed by adequate collateral.

As on December 31, 2018 GNPA stood at 3.9% respectively as against 3.7% as on December 31, 2017. Expected credit loss as per Ind AS stood at 0.8% as on December 31, 2018. RHFL have always registered higher NPA in Q1 and Q3 due to the expenditure pattern associated with the self-employed segment of customers.

Relatively higher exposure to certain riskier borrower segments.

RHFL is primarily lending towards the housing finance needs of the relatively riskier asset class comprising of low/middle income borrowers in the informal sector. Since this segment is highly susceptible to the impact of economic downturn, asset quality is a key monitorable. However, with moderate LTV and increased focus on collections, the ultimate losses are minimal.
