Details of instruments in Annexure-1

Detailed Rationale & Key Rating Drivers

The assignment of the rating to the non-convertible debenture of Satin Creditcare Network Limited (SCNL) takes into account comfort from the long-standing experience of the promoter, demonstrated ability to raise capital, company's stated intent to maintain adequate capitalization levels well above the regulatory requirement, diversified resource base and comfortable liquidity position. The ratings also take into consideration the established track record of operations, risk management systems in place which allow real time monitoring of operations. The ratings also factor in the profitable operations in FY19 and 9MFY20 following marginal profits in FY18, restoration of asset quality post demonetization to a large extent and reducing geographical concentration risk with expansion into new territories/regions.

The ratings are however constrained by higher slippages from disbursements immediately post demonetization resulting in GNPA / Stage 3 assets to AUM of 3.14% as on Dec-19 and reduction in ECL provisioning against the same from 62% as on Mar-18 to 37% as on Dec-19, increase in delinquencies in Q2FY20 following floods / excessive rainfall in few states, impact on repayments of MFIs including SCNL in few districts of Assam since Sept-19 following protests by the local unions, increase in first cycle loans in the overall loan book following expansion into new territories as against the traditional Hindi speaking belt where SCNL has long standing experience of operations. Also, concentration in Uttar Pradesh (single largest state and region most impacted post demonetization) was 25.68% as on Dec-19. The ratings of SCNL also continue to account for the inherent risk involved in the microfinance industry including unsecured lending; cash based operations, marginal profile of borrowers and socio-political intervention risk.

The ability of the company to improve its asset quality and limit the credit losses especially in view of the recent impact on portfolio in Assam, maintain comfortable capital structure and gearing levels, grow its portfolio while continuing to diversify its presence and maintaining consistent profitability are key rating sensitivities.

Rating Sensitivities

Positive Triggers

- Growth in loan book with geographical diversification of operations
- Improvement in profitability indicators with Adj. ROTA being 2.5% on sustained basis
- Maintain adequate capitalization levels well above the regulatory requirement of 15% while maintaining net adjusted gearing at less than 4 times on a sustained basis

Negative Triggers

- Deterioration in asset quality leading to substantial increase in credit losses thereby impacting the profitability and capitalization levels
- Increase in adjusted net gearing levels beyond 5 times
- Decline in cash surplus and liquidity buffers beyond a threshold which could impact the risk absorption ability

Detailed description of the key rating drivers

Key Rating Strengths

Long track record of the company, strong investor base and experienced promoter and management

SCNL has been carrying out individual lending activities since 1990. The company entered into microfinance lending in 2008 and has gained reasonable experience in the group lending business emerging as the 2nd largest NBFC-MFI in the country in terms of Assets under Management (AUM). SCNL has an eleven-member Board of Directors comprising of two promoter directors, three directors nominated by investors and six independent directors. The operations of the company are headed by the promoter, Mr H P Singh, the Chairman and Managing Director of the company who is supported by a management team having rich experience in the financial services and microfinance sector. End Dec, 2019, the promoters together held 30.19% stake in the company. Additionally, SCNL has a diversified investor base consisting of mutual funds and Foreign

¹Complete definition of the ratings assigned are available at www.careratings.com and other CARE publications

Portfolio Investors/Financial Institutions viz. Asian Development Bank, Kora Investments, NMI Fund, SBI FMO Emerging Asia Financial Sector Fund Pte Ltd, Morgan Stanley Mauritius Company Ltd, Morgan Stanley (Investments) Mauritius Ltd, IndusInd Bank and IDFC First Bank.

Demonstrated ability to raise equity capital and comfortable regulatory capital levels

SCNL has also demonstrated its ability to consistently raise capital with infusion of equity of nearly Rs.495 crore since demonetization (April 2017 to June 2019) including Rs.98 crore addition to networth upon infusion of Rs.45 crore (balance towards share warrants) from the promoters and conversion of Rs.53 crore OCRPS from IndusInd Bank into equity in June 2019.

The capitalization profile of SCNL is comfortable with regulatory CAR and Tier-I CAR of 32.17% and 24.10% as on Dec-19. However, with the growth in loan book, the adjusted overall gearing (i.e. ratio of debt including securitized portfolio and preference share capital and credit enhancement for its subsidiaries to net worth reduced by DTA, Intangible assets, investments in subsidiaries and 7.5% FLDG on the BC portfolio) has reduced 6.95x as on Sept-18 to 4.39x as on Dec-19.

This has been on account of increase in the tangible net worth base with accrual of profits and equity infusion in H1FY20 whereas the on-book debt has declined by nearly Rs.560 crore owing to significant assignment of loans and buildup of BC book during the year (36% of the AUM as on Dec-19 as against 30% as on March-19). The net adjusted gearing (adjusted for the cash and bank balance and liquid investments and accounting for assigned book as debt similar to BC portfolio) stands at 2.75x as on Dec-19 as against 4.10x as on Mar-19.

Management has stated its intent to maintain capitalization levels well above the regulatory requirement. However, going forward, the ability of SCNL to maintain its gearing levels would be one of the key monitorables.

Diversified resource base supporting liquidity

SCNL has a diversified resource base with association with over 70 Banks/FIs as on Dec 31, 2019. SCNL has demonstrated its ability to raise funding from diverse sources viz. Banks, Domestic Financial Institutions, NBFCs, Overseas and Domestic Funds etc. The major source of external funding for SCNL has been term loan from banks/FIs/NBFCs (59% of the borrowings as on Dec-19). SCNL has also raised substantial borrowings in the form of NCDs and Sub-debt (largely from overseas funds and NBFCs) accounting for nearly 20% of the overall borrowings along with a share of Commercial Paper and External Commercial Borrowings (ECBs) of 17% and 1% respectively of the overall borrowings as on Dec-19. SCNL has also accessed assignment/securitization route to raise funds (26% of the funding profile as on Jun-19). The overall resource base excluding the BC portfolio stood at Rs.6,574 crore as on Dec-19. BC portfolio of SCNL stood at Rs.522 crore i.e. 8% of AUM as on Dec-19.

SCNL has managed to raise substantial borrowings post demonetization and has also raised Rs.3,467 crore from Sept 21, 2018 to March 31, 2019 wherein NBFCs have encountered challenging liquidity conditions.

Profitable operations of SCNL during FY19 and 9MFY20

SCNL has seen 25% growth in its AUM from Rs.5085 crore as on Mar-18 to Rs.6,374 crore as on Mar-19. SCNL disbursed fresh loan of Rs.6,252 crore during FY19 (as against Rs.5,572 crore during FY18). SCNL, however, saw an increase in overall income by 41% to Rs.1373 crore in FY19 and has reported pre-provision profit of Rs.361 crore during FY19 as against Rs.172 crore during FY18. The improvement in profitability has been account of increase in Adj. NIM from 7.52% in FY18 to 9.40% in FY19 owing to higher assignment transactions undertaken during FY19 resulting in up-fronting of income from these transactions as a result of transition to INDAS. NIMs have also improved owing to improvement in capital structure. Credit costs during FY19 have been 0.87% as against 0.84% during FY18 (as per INDAS accounting). SCNL took a one time impact of Rs.118 crore taken through net-worth upon transition to INDAS (nearly 1.84% of ATA for FY19); including the same in credit cost for FY19, it would have been 2.71% of ATA.

SCNL has reported PAT of Rs.195 crores in FY19 as against overall profits of Rs.82 crore during FY18. The company had earlier reported profits of Rs.4 crore during FY18 (basis IGAAP accounting). Adj. ROTA of SCNL was 2.64% during FY19 (as against 1.45% during FY18 as per INDAS and 0.07% as per IGAAP accounting). During 9MFY20, the AUM of SCNL has not grown and has remained stable as disbursements were impacted during Q2FY20 due to flooding in few states. Consequently, profitability of SCNL was moderate, with the company having reported a PAT of Rs.144 crore during the period. Also, there is impact of negative carry due to higher cash buffer being maintained by SCNL during recent months as against in FY19 resulting in lower spreads of 5.84% and NIM of 8.09% as against Interest spread and NIM of 6.85% and 9.40% in FY19. The pre-provision profits stood at Rs.282 crore during 9MFY20 as against Rs.365 crore during FY19 despite the lower operating

costs at 4.67% in 9MFY20 as against 5% in FY19. Consequently, Adj. ROTA for the period 9MFY20 stood at 2.20% as against 2.64% in FY19.

Management information and IT systems in place

SCNL has established an efficient monitoring structure for overseeing its operations at various levels, including area level, regional level and state level. It has put in place risk management systems, viz, defined credit appraisal, collection and monitoring systems including profile of the clients and outer limit of loan size. Specialized software and user-level restrictions are in place to ensure a speedy access to the information with data security. The company has also implemented systems wherein the field staff operate through TABs connected to the internet. SCNL has put in place systems for real time monitoring of on-field data such as collections, meeting details, geo tagging of field agents etc. thereby allowing monitoring of the operations by the management across various levels of hierarchy on real time basis. It has also resulted in reduction in operational expenses by bringing down the disbursement TATs. SCNL has already moved to cashless disbursements (100% branches being cashless enabled as on Mar-19 with over 95% incremental disbursements being cashless).

Incrementally, SCNL in FY19, has improved its credit risk management and data quality maintenance systems by shifting to Centralized Credit Management System (Loan Application, KYC and Bank Account verification and Loan Sanctions), thus putting in an additional level of independent check as against a branch / field driven system earlier. SCNL has also implemented a credit scoring model for individual borrowers and groups and psychometric analysis tool which are being testing to improve the client identification process. SCNL is also testing pilots for cashless collections going forward.

Geographically diversified operations

SCNL has spread its operations and grown its portfolio in new states and currently has a presence in 22 States / UTs and 371 districts across the country with a borrower base of 31.93 lacs and AUM of Rs.6,390 crore as on Dec-19. SCNL has been traditionally a North Indian Player with presence mostly in the Hindi speaking states where it has long standing experience of operating. However, post demonetization, i.e. during FY18 and FY19 the company has expanded its footprint and grown in Eastern, North Eastern and Southern States viz. Assam, Orissa, West Bengal, Meghalaya, Tripura, Tamil Nadu, Pondicherry and Karnataka which together constituted 23.14% of the portfolio of SCNL as on Dec-19 as against just 13.61% at the end of Mar-18 and 1% as on Mar-17.

Consequently, the regional concentration risk of SCNL has reduced as reflected by reduction in the Top 5 states portfolio from 75% as on March 31, 2018 (Top 5 states being UP, Bihar, Punjab, Assam and West Bengal) to 65.15% as on Dec 31, 2019 (viz. UP, Bihar, Assam, MP and Punjab) albeit increased from 59.42% as on Mar-19. The Top State (UP) Concentration and top state concentration /Net Worth stood at 25.68% and 117% respectively as on Dec 31, 2019.

Key Rating Weaknesses

Increase in delinquencies following to floods in few states and unrest in Assam; albeit sufficient cushion available to absorb the risk

SCNL reported Stage 3 assets (PAR 90) and Net PAR 90 of 3.14% and 1.97% respectively as on Dec-19. Although, SCNL has been able to largely restore its asset quality following demonetization, its NPA levels of SCNL still remain higher than industry. This is due to predominant presence of SCNL in Uttar Pradesh, which was the area most impacted post demonetization and disbursements undertaken in the affected pockets to bring back the borrowers into the system, a lower provision cover of 39% being maintained against the PAR 90.

The asset quality of SCNL was however impacted to some extent in Q2FY20 following flooding in few states viz. MP, Assam, Bihar and Orissa as also reflected by increase in PAR 1 from 3.88% as on June-19 to 7.29% as on Dec-19 and increase in PAR 90 from 2.75% to 3.14% as on Dec-19. Also, the delinquencies have increased in Assam (which contributed to 6.94% of AUM of SCNL as on Dec-19), following unrest in North Eastern districts of Assam viz. Dibrugarh, Sivasagar, Tinsukhia, Jorhat, Golaghat and Charaideo. These districts have a portfolio of nearly Rs.254 crore as on Nov 20, 2019 (4% of AUM of SCNL as on Sept-19) and PAR 1 for these districts stood at Rs.76 crore (29.9% of the portfolio as on Nov 20, 2019). The company has taken various measures, along with SROs viz. MFIN and Sadhan to address the concern on the ground level and are encouraging the borrowers to repay.

Nevertheless, given the pre-provision profit of Rs.365 crore in FY19 and Rs.282 crore in 9MFY20 (Average Rs.94 crore quarterly), SCNL can absorb the net PAR 90 of Rs.126 crore as on Dec-19 and also the current impacted portfolio of Assam if so required. Also, there is sufficient capital cushion to absorb the loss, with Net PAR 90 being 8.98% of the Tangible Networkth as on Dec-19. The impacted portfolio of Assam which was delinquent is 5.7% of the Net-worth as on Sept-19. Going forward, however, the ability of the company to improve its asset quality and limit the net credit losses would be crucial for the credit profile of SCNL.

Majority of portfolio in UP and increase in first cycle loan borrowers

Expansion and growth in loan book in the newer territories, has meant reduction in geographical concentration, however this has also resulted in increase in first time borrowers for SCNL in new territories wherein it has limited experience of operations. The first cycle loans increased to 51.5% as on Mar-19 from 38.4% as on Mar-18. Also, SCNL's exposure in the state of Uttar Pradesh (U.P.; single largest state exposure and area most impacted post demonetization) continues to be high at 25.68% as on Dec 31, 2019.

Inherent industry risks

The microfinance sector continues to be impacted by the inherent risk involved viz. socio-political intervention risk and risks emanating from unsecured lending and marginal profile of borrowers who are vulnerable to economic downturns besides operational risks related to cash based transaction.

Liquidity: Strong

The company has a favorable liquidity position given shorter tenure of loans and advances (upto 2 years) as against long tenure of borrowings (2-7 years) and a large equity base as also reflected by a well matched ALM profile as on Dec 31, 2019. Company's expected inflows in up to one year bucket (including bank balance and liquid investments) were 1.85 times of expected outflows.

SCNL has also accessed assignment route to raise funds (Rs.1,776 crore portfolio constituting 28% of its AUM as on Dec-19). The liquidity position of SCNL is also supported by availability of on-tap funding for disbursements upon commencement of Business Correspondent (BC) operations for IndusInd Bank since Apr-18. The partnership with IndusInd Bank for undertaking BC activity (which can go upto 40% of the incremental disbursements) is expected to augment the resources profile and liquidity of the company. BC portfolio for IndusInd stood at Rs.522 crore as on Dec-19, constituting 8.2% of the overall Assets under Management as on Dec-19. Additionally, SCNL also maintains undrawn sanctioned lines which were Rs.1,131 crore as on Sept 30, 2019.

SCNL also has an established practice of maintaining adequate buffer in the form of free cash and bank balance/ liquid investments at all times to cushion its liquidity profile. As on Dec 31, 2019, SCNL was maintaining free cash and bank balance and liquid investments of nearly Rs.1875 crore.

About the Company

SCNL is a leading microfinance company based out of Delhi. The company is registered with Reserve Bank of India (RBI) as a non-deposit accepting, systemically important non-banking financial company (NBFC) and had been granted NBFC-MFI status on November 6, 2013, by RBI. SCNL is also listed on the National Stock Exchange (NSE) and Bombay Stock Exchange (BSE).

Incorporated in 1990, the company was initially engaged in providing loans to individuals including shopkeepers etc. in the urban areas. In 2008, the company started group lending business with joint liability group (JLG) model which constituted 96% of the portfolio of SCNL as on March 31, 2019 with MSME loans constituting the balance 4% of AUM as on Mar-19.

MSME Loans include unsecured loans of ticket size of Rs.1-10 Lacs for a period of 1-10 years and corporate loans to other MFIs of Rs.3-10 crore. The operations of SCNL are spread across 22 states/ UTs i.e. Uttar Pradesh, Madhya Pradesh, Bihar, Punjab, Delhi/ NCR, Uttarakhand, Rajasthan, Haryana, Chandigarh, Jammu & Kashmir, Maharashtra, Chhattisgarh, Jharkhand, Himachal Pradesh, West Bengal, Gujarat, Orissa, Assam, Karnataka, Meghalaya, Tripura and Pondichery. As on Dec, 2019, SCNL was operating in 371 districts managed through 1110 branches with 31.93 Lac active borrowers (Individual & JLG) with total assets under management (AUM) being Rs.6,390 crores (including BC book for IndusInd of Rs.522 crore and assigned portfolio of Rs.1,776 crore).

SCNL also has three subsidiaries viz. Taraashna Financial Services Limited (TSL), Satin Housing Finance Limited (SHFL) and Satin Finserv Ltd. TSL acts as a business correspondent for 4 Banks/FIs. The company has spread its presence in 8 states (Rajasthan, Gujarat, Maharashtra, Madhya Pradesh, Chattisgarh, Bihar, Punjab and UP) with 213 branches and AUM of

Rs.646 crore as on Dec-19. SHFL is a HFC registered with NHB which undertakes extension of home loans and Loan Again property. Currently, SHFL sources its business in Delhi/NCR, Uttar Pradesh and Rajasthan region. It commenced lending operations in February 2018 and has built a loan portfolio of Rs.138 crores. Satin Finserv Limited is the newest subsidiary of the group formed to foray into the MSME segment which commenced operations in March 2019. The AUM of SFL as on Dec 31, 2019 was Rs.109 crore as on Dec 31, 2019.

About CARE Ratings:

CARE Ratings commenced operations in April 1993 and over two decades, it has established itself as one of the leading credit rating agencies in India. CARE is registered with the Securities and Exchange Board of India (SEBI) and also recognized as an External Credit Assessment Institution (ECAI) by the Reserve Bank of India (RBI). CARE Ratings is proud of its rightful place in the Indian capital market built around investor confidence. CARE Ratings provides the entire spectrum of credit rating that helps the corporates to raise capital for their various requirements and assists the investors to form an informed investment decision based on the credit risk and their own risk-return expectations. Our rating and grading service offerings leverage our domain and analytical expertise backed by the methodologies congruent with the international best practices.

Disclaimer

CARE's ratings are opinions on the likelihood of timely payment of the obligations under the rated instrument and are not recommendations to sanction, renew, disburse or recall the concerned bank facilities or to buy, sell or hold any security. CARE's ratings do not convey suitability or price for the investor. CARE's ratings do not constitute an audit on the rated entity. CARE has based its ratings/outlooks on information obtained from sources believed by it to be accurate and reliable. CARE does not, however, guarantee the accuracy, adequacy or completeness of any information and is not responsible for any errors or omissions or for the results obtained from the use of such information. Most entities whose bank facilities/instruments are rated by CARE have paid a credit rating fee, based on the amount and type of bank facilities/instruments. CARE or its subsidiaries/associates may also have other commercial transactions with the entity. In case of partnership/proprietary concerns, the rating /outlook assigned by CARE is, inter-alia, based on the capital deployed by the partners/proprietor and the financial strength of the firm at present. The rating/outlook may undergo change in case of withdrawal of capital or the unsecured loans brought in by the partners/proprietor in addition to the financial performance and other relevant factors. CARE is not responsible for any errors and states that it has no financial liability whatsoever to the users of CARE's rating.

Our ratings do not factor in any rating related trigger clauses as per the terms of the facility/instrument, which may involve acceleration of payments in case of rating downgrades. However, if any such clauses are introduced and if triggered, the ratings may see volatility and sharp downgrades.
