Total facilities	51.00 (Rupees Fifty One Crore only)		

Detailed Rating Rationale & Key rating drivers

CARE has placed the ratings assigned to the bank facilities of Seamec Ltd (Seamec) under 'credit watch' with developing implications. CARE notes, that Seamec Ltd and its parent HAL Offshore Ltd (HOL) are in the process of a business restructuring exercise whereby the board has decided to go for the reverse merger of the EPC and Vessel Division of HOL with Seamec. HOL is also into the business of executing EPC contracts for oil & gas industry in addition to the business of chartering of offshore vessels as Seamec.

CARE has sought information and clarifications from the company, and it would take final rating decision once the exact implications of the above development on the business and overall credit risk profile of the company, are clear.

The rating of Seamec continues to derive strength from its established position in the offshore servicing industry, long-standing business relationship with clients, healthy net worth and comfortable debt service coverage indicators. These rating strengths are partially tempered by the concentration of revenues from offshore services, high average age of fleet and redeployment risk at competitive rates.

Any large sized debt funded vessel acquisition having significant implications on the capital structure and any further repatriation of cash by the holding company affecting its liquidity profile would remain the rating monitorable.

Key Rating Strengths

Experienced Promoters

The company is backed by HOL which has two decades of operational expertise in the Oil & gas industry. Majority of the senior management has prior experience in the same industry and is supported by an eight member Board consisting of four independent directors.

Established relationship with clients and strong market position

¹Complete definitions of the ratings assigned are available at www.careratings.com and in other CARE publications.

Seamec has been providing specialised services to the offshore oil & gas industry in India and abroad. Over the years, the company has built upon a strong market position through its deliverables and superior service record of accomplishment. The company mostly offers its services to reputed clients in the oil & gas industry and has been serving most of these clients over a long-term period. The company's past track record provides visibility on its quality of service, which has helped the company in garnering repeat orders from them over the years.

Key Rating Weaknesses

Revenue concentration from offshore support vessels

Seamec's revenues are dependent upon the E&P activity of some of its major customers in the Oil & Gas industry. Within the Oil & Gas industry as well, Seamec offers its services only to particular sub-segment which further exposes the company to revenue concentration risk.

Higher average age of the fleet and redeployment risk

The average age of Seamec's fleet is 32 years, which continues to remain a major concern. With periodic changes on the regulatory front pertaining to the age of the servicing vessels, the redeployment risk of putting up the old vessels on a long-term charter significantly increases.

Industry highly sensitive to economic and commodity price cycle

The prospect for the offshore services industry hinges upon the growth of Exploration and Production (E&P) activities. Since field and new exploration, activity is supported by vessels of Seamec; its revenues will be directly affected by the level of E&P activities of major oil & gas companies. Any fall in E&P spending by these major oil & gas companies can have a negative impact on the demand for offshore service vessels, which would also impact the vessels day rates.

Moderation in business and financial risk profile

Owing to continuing lower crude oil, the global vessel charter rates for the offshore services industry declined significantly. Seamec like other players in the offshore service industry is affected similarly. The charter rates have declined and vessel utilizations have been affected, thus impacting the revenue and cash accruals of the company. Except three vessels other vessels of Seamec are deployed on spot and further the charter rates (for vessels deployed on long term charter) have come down on contract renewal. The company has posted loss in FY17 due to provision of Rs. 138.50 crore made for the doubtful receivable of Swiber group which has gone for liquidation. However the company has negligible debt in its books which provides comfort.

About CARE Ratings:

CARE Ratings commenced operations in April 1993 and over two decades, it has established itself as one of the leading credit rating agencies in India. CARE is registered with the Securities and Exchange Board of India (SEBI) and also recognized as an External Credit Assessment Institution (ECAI) by the Reserve Bank of India (RBI). CARE Ratings is proud of its rightful place in the Indian capital market built around investor confidence. CARE Ratings provides the entire spectrum of credit rating that helps the corporates to raise capital for their various requirements and assists the investors to form an informed investment decision based on the credit risk and their own risk-return expectations. Our rating and grading service offerings leverage our domain and analytical expertise backed by the methodologies congruent with the international best practices.

Disclaimer

CARE's ratings are opinions on credit quality and are not recommendations to sanction, renew, disburse or recall the concerned bank facilities or to buy, sell or hold any security. CARE has based its ratings/outlooks on information obtained from sources believed by it to be accurate and reliable. CARE does not, however, guarantee the accuracy, adequacy or completeness of any information and is not responsible for any errors or omissions or for the results obtained from the use of such information. Most entities whose bank facilities/instruments are rated by CARE have paid a credit rating fee, based on the amount and type of bank facilities/instruments.

In case of partnership/proprietary concerns, the rating /outlook assigned by CARE is based on the capital deployed by the partners/proprietor and the financial strength of the firm at present. The rating/outlook may undergo change in case of withdrawal of capital or the unsecured loans brought in by the partners/proprietor in addition to the financial performance and other relevant factors.
