Detailed Rationale & Key Rating Drivers

The ratings of the bank facilities of Shivam Autotech Limited (SAL) continue to derive strength from the experienced and resourceful promoters, favorable location of plants, strong operational linkages and long-standing relationship with its major customer. The ratings also take cognizance of significant increase in revenues and improvement in profitability at PBILDT levels, though with a loss at net levels

The ratings, however, remain constrained by moderated solvency and debt coverage indicators on account of debt funded capex in the past. The ratings are further constrained by revenue concentration risk, working capital intensive nature of operations and cyclical nature of auto sector.

Going forward, SAL's ability to ramping-up production at the new plants along with improvement in profitability margins as well as continued support and linkage with Hero Motors Group shall be the key rating sensitivities.

Detailed description of the key rating drivers

Key Rating Strengths

Experienced promoters

SAL is part of the Satyanand Munjal Group (Late Mr Satyanand Munjal was brother of Late Mr BrijMohan Lall Munjal) and was started in 1999 to meet the requirements of Hero MotoCorp Limited's (HML) component requirements. Subsequently in 2005, SAL was hived-off from Munjal Auto Industries Ltd with focus on forging and machinery division. The company's Chairman, Mr Sunil Kant Munjal (son of Late Mr Brijmohan Lall Munjal) has a vast experience in the 2-W industry. He was also previously the Joint Managing Director of HML. The promoters i.e. Munjal family holds 74.80% stake in SAL through Dayanand Munjal Investments Pvt Ltd as on Sep 30, 2018. Mr. Yogesh Munjal (MD of Munjal Showa Ltd and son of Late Mr Satyanand Munjal) controls Dayanand Munjal Investments Pvt Ltd. Dayanand Munjal Investments Pvt Ltd owns 39% stake in Munjal Showa Ltd.

Mr Neeraj Munjal (son of Mr.Yogesh Munjal), Managing Director has almost two decades of experience in the auto component sector. Mr Munjal holds a Diploma in Business Management from Bradford & Ilkley Community College, England, besides a Bachelor Degree in Commerce.

Location advantage

The company's business profile is strongly linked with HML which is the largest customer of SAL and accounted for approximately 67% of revenue in FY18. On the other hand, HML is also dependent on SAL for procurement of gears and shafts which accounts for approximately 65-70% of its overall requirement. Thus, the two companies have strong operational linkages. Most of the manufacturing plants of SAL are located in the vicinity of HML's manufacturing plant.

Moderate financial risk profile

SAL has been expanding its capacity in recent past in order to meet the demands of HML and also tap other clienteles. During FY16-18, the company has developed two new facilities viz. in Bengaluru for manufacturing of automotive gears and shafts for HML and other OEMs and another in Rohtak for power tools. Moreover, with high debt facilities availed, the overall gearing stepped up from 2.10x on 31-Mar-17 to 2.19x on 31-Mar-18. The installed capacity increased from 933.23 lppa as on March 31, 2017 to 987.35 lppa as on March 31, 2018. During FY18, SAL achieved y-o-y growth of 22% in total operating income to Rs. 556.78 cr mainly driven by improved industry scenario. PBILDT margin improved significantly to 14.09% in FY18. With higher depreciation cost (due to commissioning of Bengaluru and Rohtak plant) and higher interest cost (for funding Bengaluru and Rohtak), the company incurred net loss of Rs.1.23 cr in FY18 against net loss of Rs.3.60 cr in FY17. However, the company continued to earn cash profit (FY18: Rs.33.22 cr; PY: Rs.18.93 cr).

 1 Complete definition of the ratings assigned are available at <u>www.careratings.com</u> and other CARE publications

The company achieved 13% y-o-y growth in total operating income to Rs. 464.88 cr (9MFY18: Rs. 410.74 cr). Also during 9MFY19, the PBILDT and PAT stood at Rs. 66.62 cr and Rs. 0.43 cr respectively.

Liquidity: The liquidity profile is marked by high working capital utilization of around 98% during 12m period ending 30-Nov-18. The current ratio stood at 0.70x as on 31-Mar-18. The prudent working capital management would be crucial. The company also has option of customer invoice discounting of its key customers to ease the working capital requirements.

Key Rating weaknesses

Revenue concentration; mitigated by established relationship with the key customer

SAL derives majority of its revenue from single client: HML. During FY18, SAL derived 67% of its revenue from HML Furthermore, majority of its product manufactured such as gears and shafts find usage in two wheelers. As a result, SAL is exposed to customer concentration as well as segment concentration risk.

However, the customer concentration risk is mitigated to a large extent due to long standing relationship with HML. HML, with operations expanding to 35 countries, is the largest 2-W manufacturer globally with annual sales volumes of more than 7.5 million units and has dominant position in domestic motorcycle and 2-W market. During FY18, the HML reported PAT of Rs.3,697 cr (PY: 3,546) on total income of Rs.33,398 cr (PY: 31,480).

Moreover, the company is also diversifying its customer concentration gradually and has now been focusing on new products and heavy industrial goods companies.

Working capital intensive operations

Being in auto ancillary industry, the operations of the company are working capital intensive in nature. The customers are allowed credit period of 45-50 days, while payments to suppliers are made in 50-60 days. However, the company is required to maintain inventory of close to 2-3 months. The operating cycle of the company remains between 70-80 days. The working capital utilization usually remains high (avg: 96%, max: 98% during 12m period ending 30-Nov-18).

Analytical approach: Standalone

CARE's methodology for financial ratios (Non-Financial Sector)

About the company

SAL, formerly known as Munjal Auto Components, commenced operations in Sep-1999 as an autonomous wing of 'HERO' Group. Later in 2005, the forging and machinery divisions were hived off and thus SAL was incorporated in July 29, 2005. The company is engaged in manufacturing of transmission gear & shafts, Precision Engineering Components (PECs), etc. for two wheelers. SAL has five plants located in Gurgaon, Manesar, Haridwar, Bengaluru and Rohtak.

Brief Financials

Brief Financials (Rs. crore)	FY17 (A)	FY18 (A)
Total operating income	455.69	556.78
PBILDT	47.62	78.43
PAT	(3.60)	(1.23)
Overall gearing (times)	2.10	2.19
Interest coverage (times)	1.64	1.72

About CARE Ratings:

CARE Ratings commenced operations in April 1993 and over two decades, it has established itself as one of the leading credit rating agencies in India. CARE is registered with the Securities and Exchange Board of India (SEBI) and also recognized as an External Credit Assessment Institution (ECAI) by the Reserve Bank of India (RBI). CARE Ratings is proud of its rightful place in the Indian capital market built around investor confidence. CARE Ratings provides the entire spectrum of credit rating that helps the corporates to raise capital for their various requirements and assists the investors to form an informed investment decision based on the credit risk and their own risk-return expectations. Our rating and grading service offerings leverage our domain and analytical expertise backed by the methodologies congruent with the international best practices.

Disclaimer

CARE's ratings are opinions on credit quality and are not recommendations to sanction, renew, disburse or recall the concerned bank facilities or to buy, sell or hold any security. CARE has based its ratings/outlooks on information obtained from sources believed by it to be accurate and reliable. CARE does not, however, guarantee the accuracy, adequacy or completeness of any information and is not responsible for any errors or omissions or for the results obtained from the use of such information. Most entities whose bank facilities/instruments are rated by CARE have paid a credit rating fee, based on the amount and type of bank facilities/instruments.

In case of partnership/proprietary concerns, the rating /outlook assigned by CARE is based on the capital deployed by the partners/proprietor and the financial strength of the firm at present. The rating/outlook may undergo change in case of withdrawal of capital or the unsecured loans brought in by the partners/proprietor in addition to the financial performance and other relevant factors.
