Detailed Rationale & Key Rating Drivers

CARE had, vide its press release dated June 26, 2019, placed the rating of Sri Adhikari Brothers Television Network Limited (SABTNL) under the 'Issuer non-cooperating' category as SABTNL had failed to provide information for monitoring of the rating as agreed to in its Rating Agreement. SABTNL continues to be non-cooperative despite repeated requests for submission of information through e-mails, phone calls and a letters/emails dated March 30, 2020, April 01, 2020, April 03, 2020, April 07, 2020, April 16, 2020, May 01, 2020, May 4, 2020, May 06, 2020, May 08, 2020, May 14, 2020, May 30, 2020, June 01, 2020, June 03, 2020, June 05, 2020, June 08, 2020, June 12, 2020, June 16, 2020 and June 18, 2019. In line with the extant SEBI guidelines, CARE has reviewed the rating on the basis of the best available information which however, in CARE's opinion is not sufficient to arrive at a fair rating. The rating on Sri Adhikari Brothers Television Network Ltd's bank facilities will now be denoted as CARE D; ISSUER NOT COOPERATING*.

Users of this rating (including investors, lenders and the public at large) are hence requested to exercise caution while using the above rating.

The ratings take into account the ongoing delay in servicing debt obligations primarily on account of slowdown in business performance and stretched working capital cycle resulting in deterioration of liquidity position of the company.

Detailed description of the key rating drivers

*At the time of last rating on June 26, 2019 the following were the rating strengths and weaknesses:
(updated for the information available from Registrar of Companies, stock exchanges etc.)*

Key Rating Weakness
Ongoing delay in debt servicing:

As per the recent audit report for 9MFY20 and Audit Report available with the company's stock exchange disclosure for FY19 results, there are ongoing delays in debt servicing. Further, the audit report mentions that the account has been classified as Non-Performing Asset (NPA) by the banks due to delay in repayment of loans taken from the banks. The same is on account of stretched working capital cycle resulting from high debtor days. The low business performance combined with elongated working capital cycle has led to weak liquidity position.
