Detailed Rationale & Key Rating Drivers

The ratings assigned to the bank facilities of Zee Entertainment Enterprises Limited (ZEEL) have been placed on credit watch with developing implications on account of the proposed plan wherein the promoters (own 41.62% equity stake of the company as on December 31, 2018) have conveyed their intentions to sell/divest up to 50% of their equity stake to a strategic partner with a view to pursue disruptive technological development and transform the business into a tech-media company. The stake sale is expected to improve the liquidity of the group. Recently the promoter's stake in the company has reduced from 41.62% to 41.02%. It is possible that the promoters' stake sale may result in change in the ownership of the company. *As a result, CARE Ratings has placed the ratings on Credit Watch with developing implications and will take a view on the ratings once these developments unfold.*

The ratings assigned to the bank facilities of ZEEL continue to derive strength from its well-established promoter group (Essel) having a long track record in the media and entertainment industry, wide platform for distribution with a large bouquet of channel offerings covering a wide genre of entertainment, position of the flagship channel 'Zee TV' amongst the top Hindi General Entertainment Channels (GECs) in terms of Television Viewership. The ratings are further strengthened by ZEEL's comfortable financial risk profile characterized by consistent increase in the scale of operations with healthy profitability over the years, healthy debt coverage indicators as well as sizeable cash reserves and liquid investments bolstering the liquidity profile.

The above rating strengths are however tempered by the volatile nature of the main source of revenue i.e. advertisement revenue which is sensitive to key economic indicators and regulatory changes. Furthermore, the ratings also factor in the changing trends and increasing competition faced by the media sector. Going forward, the ability of ZEEL to retain/increase its flagship channel position amongst the top four Hindi GECs, self - sustainability of the group companies to which ZEEL has extended DSRA support as well as increase in the overall revenue and profitability amidst the changing trends and increasing competition faced are the key rating sensitivities.

Detailed description of the key rating drivers**Key Rating Strengths*****Strong promoter group and experienced management***

The promoters of ZEEL have been in the media & entertainment business for more than two decades as the flagship channel (Zee TV) was launched in 1992. Since then, the single channel entity has evolved into a Media and Entertainment conglomerate with more than 250,000 hours of television content offering 38 domestic and 39 international channels. The promoters have been closely involved in the overall business strategy with expansion of their large bouquet of channels to overseas market and strategically investing in advanced media technology. ZEEL is headed by Mr. Punit Goenka, Managing Director & CEO while the international business is being managed by Mr. Amit Goenka. Further, the promoters are supported by well experienced and qualified management team.

Strong recognition of brand ZEE and diversification of business operations across varied segments

ZEE brand has a strong recognition in the media and entertainment industry given its long and successful track record. Further, ZEEL and its affiliate companies have presence across varied media value chains including television

broadcasting, cable distribution, direct-to-home satellite service, digital media, and print media amongst others. ZEEL's portfolio is diversified across varied segments including broadcasting in domestic and international market, production and distribution of films across several languages, launching leading music labels, organizing various live entertainment events and content distribution through digital space namely through the OTT platform established i.e. ZEE5 and through its 24 online portals managed by its subsidiary – India Webportal Pvt. Ltd.

Large bouquet of channel offerings

Over the past 25 years, ZEEL has built a strong portfolio of 38 domestic and 39 international channels. ZEEL owns 13 dedicated non-Indian language channels that offer content to the audiences in their local languages. During FY18 and 9MFY19, ZEEL undertook various strategic transactions such as acquisition of the General Entertainment Broadcasting business of ADAG group which includes two channels - Big Magic and Big Ganga, ownership of the remaining 49% equity stake in India Webportal Private Limited (a company that operates a suite of websites focusing on entertainment, news and sports content). During Q3FY19, ZEEL launched Zee Keralam, a Malayalam channel thus expanding its presence in the South market. Such additions/acquisitions would offer ZEEL multiple synergies with the existing portfolio thus strengthening its overall reach in the market.

Decline in the Corporate Guarantee extended to the group companies

ZEEL has extended various off balance sheet support to its group entities (Zee Learn Limited and Siti Networks Limited). The guarantees are in the nature of performance guarantees extended to meet various contractual obligations (mainly concerning broadcasting rights) and to maintain DSRA (Debt Service Reserve Account) for a stipulated size wherein ZEEL would make good the shortfall within the stipulated time as specified in the agreement. However, these companies have demonstrated their ability to manage their operations on a standalone basis through internal accruals generated/raising additional debt. The overall gearing ratio of ZEEL (post including the guarantees extended) remains comfortable at 0.29x as on March 31, 2018 (as compared to 0.46x as on March 31, 2017).

Comfortable debt coverage indicators and liquidity profile

ZEEL has comfortable overall gearing and debt coverage indicators marked by comfortable total debt to GCA (Gross Cash Accruals) and interest coverage as shown in the table mentioned below:

Particulars	FY17	FY18
Total Debt (Rs. crore)	2203	1526
Tangible net worth (Rs. crore)	6378	6856
Total Debt/GCA (x)	0.85	0.94
Overall Gearing (x)	0.35	0.22
Interest Coverage (x)	13.93	17.07

Furthermore, ZEEL has strong liquidity profile supported by liquid investments of Rs. 458 crore (Rs. 308 crore as on March 31, 2017) and cash and bank balance of Rs. 1609 crore (Rs. 2612 crore as on March 31, 2017) as on March 31, 2018. The debt coverage indicators of ZEEL continue to remain strong and with continued growth in total income, stable profitability margin and retention of large portion of profits, the existing leverage is expected to reduce in the near term with redemption of Preference shares and decrease in corporate guarantees extended to group companies.

Key Rating Weaknesses

Industry Outlook

In India, for most of the consumers, watching content on television has generally been the primary source of entertainment while the digital platform is now becoming relevant. Consumers' changing preference towards the digital platform requires huge content costs to be incurred, thus impacting the profitability margins of the company in the near to medium term. Ability of the company to maintain its profitability margins amidst the changing trends and increasing competition imposed by alternative platforms such as OTT, IPTV forms a key rating sensitivity. Also, the advertisement income that constitutes a major source of revenue gets impacted by macroeconomic factors and rating performance of the channels. It forms a key rating monitorable as any decline in the same would have a direct impact on the revenue earned, thereby impacting its profitability. The TRAI Order that comes into effect on February 01, 2019 offers customers the privilege to choose the desired channels on an ala carte basis. This is expected to put an end to the bundling of channels carried out by the broadcasters, thus benefiting the broadcasters who own quality content.

Analytical approach: Consolidated

In view of strong operational and financial linkages between the company and its subsidiaries, the consolidated financials of ZEEL have been considered for analytical purposes. The details of the subsidiaries consolidated have been mentioned in Annexure 3.
