### Detailed Rationale & Key Rating Drivers

The revision in rating assigned to long term bank facilities of Zee Media Corporation Limited (ZMCL) takes cognizance of the fact that company does not have concrete refinancing plan in place for servicing the debt obligation of (Non-Convertible Debenture issue) Diligent Media Corporation Limited (DMCL). ZMCL has extended corporate guarantee for the Non-Convertible Debenture (NCD) issued by DMCL amounting to Rs.438.90crore. DMCL's financial profile stands weak with negative net-worth and debt size of Rs.817.96 crore as on March 31, 2019. In addition DMCL has ceased operations of its print business. During Q4FY19 to Q3FY20, ZMCL has accounted for significant impairment to an extent of Rs.436.27 crore on DMCL investment. The rating also factors in further significant decline in the market capitalization of the company and high level of pledging of the promoter holding. As on March 31, 2020, amongst the total promoter holding of 44.86% in ZMCL, 99.80% has been pledged. The ratings assigned to the bank facilities of ZMCL continue to factor in the high competitive intensity in the news broadcasting space, and highly regulated industry segment.

The ratings, however, continue to derive strength from the established track record of the promoter group in the media and entertainment industry, availability of a wide platform for distribution with a bouquet of national and international channels. The ratings further take into consideration growth in income and profitability.

### Rating Sensitivities

#### Positive Factors:

ZMCL or DMCL or both are able to refinance the NCD liabilities of DMCL amounting to Rs.438.90 crore before its due date on 30 June 2020

#### Negative Factors:

ZMCL is unable to service the NCD obligation in case of Invocation of corporate guarantee by the investors in NCD

#### Outlook: Negative

The negative outlook factors in refinancing risk associated with DMCL for refinancing of the NCD repayments due on June 30, 2020, for which ZMCL has extended corporate guarantee

### Detailed Rationale & Key Rating Drivers

#### Key Rating Weaknesses

#### Corporate Guarantee extended for the debt raised by DMCL

ZMCL has extended corporate guarantee to the NCD raised by DMCL amounting to Rs.438.90 crore, due to be paid on June 30, 2020. Considering the large repayment obligation that would accrue when compared to ZMCL's cash accruals,

<sup>1</sup>Complete definitions of the ratings assigned are available at [www.careratings.com](http://www.careratings.com) and in other CARE publications.

the company expects to refinance the same. However, absence of any concrete plan in place to refinance the NCD issued by DMCL before its due date on June 30, 2020 would be critical from credit perspective. Given the further reduced financial flexibility of the Essel group, refinancing the same remains to be seen and would be critical from credit perspective.

#### ***Deterioration in capital structure***

ZMCL has accounted for impairment of investment in DMCL which has been charged to profit & loss account for FY19 and 9MFY20. The same resulted in net loss and in turn reduction in the net-worth base of the company. Thus the debt to equity and overall gearing ratios have deteriorated to 0.19x and 0.32x respectively as on March 31, 2019 as compared to 0.10x and 0.19x respectively as on March 31, 2018. On considering the corporate guarantee extended to DMCL, the overall gearing stood at 0.98x as on March 31, 2019.

#### ***Weak liquidity position***

The overall liquidity of the company remains adequate characterized by low cash accruals vis-à-vis repayment obligations (excluding DMCL's obligation) and cash balance of Rs.24.39 crore as on March 31, 2019 (vis-à-vis Rs.10.02 crore as on March 31, 2018) and Rs.41 crore as on September 30, 2019. Its capex requirements are moderate which would be funded through internal cash accruals. ZMCL's bank limits are utilized to the extent of around 74% in the twelve months ended September 2019. However considering the large repayment obligation that is contingent on ZMCL as guarantor to the NCDs raised by DMCL which has negative net-worth and debt size of Rs.817.96 crore as on March 31, 2019, the liquidity position of ZMCL is expected to weaken going forward. Given the further reduced financial flexibility of the Essel group, refinancing the same remains to be seen and would be critical from credit perspective.

#### ***Operates in highly competitive and regulated industry segment***

The competition is ever increasing with large number of players entering the News Broadcasting industry. Moreover, technological changes have laid new distribution platforms inviting competition from newer players. To maintain its competitive edge in such a scenario, the company will need to anticipate viewer preferences to create, acquire, commission, and produce compelling content across platforms favoured by the consumers.

#### **Key Rating Strengths:**

##### ***Established track record of promoter group in media and entertainment industry***

Essel Group has been in the media and entertainment business for more than two decades, as the flagship channel (Zee TV) was launched in 1992. ZEE brand has a strong recognition in the media and entertainment industry given its long and successful track record. Further, Essel Group has a presence across allied media value chains including television broadcasting, cable distribution, direct-to-home satellite service and digital media amongst others. The group is headed by Mr. Subhash Chandra while the media business is headed by his son Mr. Punit Goenka. The promoters are well supported by experienced and qualified management team.

##### ***Wide platform for distribution with a bouquet of national and international channels***

Over the past 19 years, ZMCL has built a strong portfolio of 14 news channels in eight different languages and reaching more than 422 million users through digital channels. In addition, ZMCL manages its multi-lingual digital news platform i.e. Zeenews.com. The home shopping channel launched by ZMCL namely Ez-Mall Online (engage in e-commerce business) during FY18, was sold off in FY19 on account of continued operating losses.

##### ***Integration of advertisement sales function resulting in reduced cost***

The Zee Group's advertisement sales function has been integrated into a separate company i.e. ZEE Unimedia Limited. ZUL has entered into an agreement with the media entities of the Essel Group to act as a canvassing agent for sale of available advertisement space. The approach of collective advertisement sales not only benefits the group in maximizing advertising revenues for its entities but also helps the advertisers/agencies in single Ad solution and wider reach across multiple platforms i.e. television, print, digital, radio etc. In consideration for the services provided.

#### **Growth in revenue and operating profitability in FY19**

During FY19, ZMCL posted growth of 20% in total income (consolidated level) which is mainly attributed to revenue growth from the advertising. However, de-growth in the advertising & subscription revenue in Q3FY20 has led to decline

in net sales by 4.6% to Rs.493.60crore in 9MFY20 (vis-à-vis Rs.517.57crore in 9MFY19). Further with stabilization of newly launched channels in FY18, the PBILD margins have improved in FY19 to 26.53% vis-à-vis 18.53% in FY18. Further, during Q3FY20 ZMCL has provided impairment loss of Rs.200.43crore in respect of its investment in DMCL.

**Liquidity:** The overall liquidity of the company remains adequate characterized by low cash accruals vis-à-vis repayment obligations (excluding DMCL's obligation) and cash balance of Rs.24.39 crore as on March 31, 2019 (vis-à-vis Rs.10.02 3 CARE Ratings Limited Press Release crore as on March 31, 2018) and Rs.41 crore as on September 30, 2019. Its capex requirements are moderate which would be funded through internal cash accruals. ZMCL's bank limits are utilized to the extent of around 61% in the twelve months ended December 2019. However considering the large repayment obligation that is contingent on ZMCL as guarantor to the NCDs raised by DMCL which has negative net-worth and debt size of Rs.817.96 crore as on March 31, 2019, the liquidity position of ZMCL is expected to weaken going forward. Given the further reduced financial flexibility of the Essel group, refinancing the same remains to be seen and would be critical from credit perspective.

### Prospects

The media and entertainment industry is expected to witness a healthy growth with a CAGR of 11.6% over 2016-2020, with the television media industry expected to grow at 9.8% and digital media at 24.9% over the same period. The news genre is also seeing benefits from switch of channels from Pay to Free-to-Air platform leading to expansion in viewership and consequent growth in advertising revenues. Healthy competition is prevalent in the business and general news space both in the national and regional market. Ability of the company to maintain its operating margins without jeopardizing its market share forms a key rating sensitivity.
