

Corporate Performance: Q1 FY14

Overview:

A study of the performance of 1,248 companies showed that net sales increased by 5.4% in Q1 FY14 as against 17.5% in the previous year while net profit increased by 7.2% compared with a growth of 0.6% in Q1 FY13. Lower growth in costs, especially of raw materials and slowdown in growth in interest costs did assist in pushing up profits. Net profit margin remained virtually unchanged at 10.1%.

Tables 1 give information on the financial performance for the first quarter FY13 and FY14.

Table 1: Summary Performance of 1,248 companies

| Growth (%) | Q1 FY13 | Q1 FY14 | | | | |
|-----------------------|---------|---------|--|--|--|--|
| Net Sales | 17.5 | 5.4 | | | | |
| Other Income | 14.3 | 22.6 | | | | |
| Total Income | 17.4 | 6.3 | | | | |
| Total Expenses | 18.1 | 3.5 | | | | |
| Raw Material Expenses | 16.3 | -4.2 | | | | |
| Salaries and Wages | 17.6 | 15.5 | | | | |
| Interest Expenses | 29.4 | 10.2 | | | | |
| Depreciation | 9.3 | 13.0 | | | | |
| Profit before tax | 0.4 | 8.7 | | | | |
| Taxes | -0.2 | 13.4 | | | | |
| Net Profit | 0.6 | 7.2 | | | | |
| Ratio (%) | | | | | | |
| PBT Margin | 13.3 | 13.7 | | | | |
| Net Profit Margin | 10.0 | 10.1 | | | | |
| Interest cover | 1.7 | 1.7 | | | | |

Source: ACE Equity

The overall performance of the companies can be attributed to the following factors:

- Net sales registered a growth of 5.4% in Q1 FY14 compared with 17.5% in the previous year. The decline in growth rate of sales could be attributed to the low industrial production numbers with slack conditions in the economy. Industrial production grew by 0.1% in April May FY14 as against 0.6% last year. Growth in the core industries, which account for 37.9% of IIP, witnessed slower growth of 1.6% in Q1 FY14 as against 6.9% growth in Q1 FY13 indicating lower production activity in the quarter gone by.
- Total expenses grew by 3.5% in Q1 FY14 as against 18.1% in the corresponding period last year.

- The growth in raw materials expenses (constitutes around 48% of total expenditure) entered the negative territory (-4.2%). This is mainly because of decline in the average inflation from 7.5% in Q1 FY13 to 4.8% in Q1 FY14, thereby bringing down the nominal value of raw materials purchases. Also, the core inflation declined from 6.0% in Q1 FY13 to 3.2% in Q1 FY14. Quite clearly the impact of rupee depreciation in May and June has not affected the performance this quarter.
- Salaries and wages, which comprise around 13% of total expenditure, saw a decline in the growth rate from 17.6% in Q1 FY13 to 15.5% in Q1 FY14.
- Interest expenses saw a drastic decline. The growth in the same declined from 29.4% in Q1 FY13 to 10.2% in Q1 FY14. Growth in bank credit witnessed a decline from 3.3% in Q1 FY13 to 2.9% in Q1 FY14. Lower interest expenses growth was more on account of lower off take in credit. Additionally to the extent that banks lowered interest rates, as seen by the base rate coming down from average of 10.36% in Q1 FY13 to 10.09% in Q1 FY14, there were savings in growth in interest costs.
- Net profit margin, defined by net profit to sales ratio remained virtually unchanged at 10.1%.
- However, Interest cover, defined by PBIT to interest expenses ratio remained stable at 1.7 times

Size Wise Analysis

A break down according to size would throw light on whether or not the performance has been even across different size groups. Table 2 below gives the composition of the sample companies based on the net sales in Q1 FY14. Also, the share of each size group is given in terms of net sales in Q1 FY14.

Table 2: Sample Profile by size according to net sales

| Size Range | No | Growth Net | Growth Net | Share (%) |
|--------------|-----|------------|------------|-----------|
| (Rs crore) | | Sales (%) | profit (%) | |
| Above 1,000 | 119 | 5.6 | 11.3 | 81.2 |
| 500-1,000 | 73 | 9.0 | 27.6 | 7.8 |
| 100-500 | 247 | 2.6 | -17.8 | 8.8 |
| 50-100 | 121 | 1.2 | -14.1 | 1.3 |
| Less than 50 | 688 | -7.4 | -22.1 | 0.9 |

Source: ACE Equity

Some interesting observations that emerge from this table are:

- The top 119 companies each having sales of over Rs 1,000 crore, account for 81.2% of total sales of the sector have a growth of 5.6% in net sales.
- Highest growth in net sales (9.0%) is registered by companies with sales of between Rs 500 crore Rs 1000 crore. The growth in sales for the lower sized groups (sales of Rs 50 -100 crore and less than Rs 50 crore) stood at 1.2% and -7.4%.
- Growth in net profit was largely dominated by the 192 companies having sales above 500 crore.

- Net Profit for companies with sales between Rs 500 crore Rs 1000 crore grew by 27.6%, followed by companies with sales of more than Rs 1000 crore (11.3%)
- Companies with sales of less than Rs 500 crore registered negative growth in profits

Industry Wise Analysis

- Growth in net sales improved in case of;
 - Air conditioners
 - o Ceramics & Sanitary ware
 - o Electronics
 - Packaging
 - Paints
 - Pesticides
 - Printing
 - o Tea/Coffee
 - o Telecom
 - Textiles
- Negative sales growth was witnessed in case of;
 - o Abrasives
 - Auto ancillary
 - Automobiles
 - Bearings
 - Casting/Forging
 - Cement & Construction Activities
 - Chemicals
 - Diesel engine
 - o Diversified
 - Electric Equipments
 - Electrodes
 - Fertilizers
 - Metals
 - o Mining & Minerals
 - o Steel & Iron
 - Sugar
- Fourteen industry groups witnessed an improvement in net profit growth; Auto Ancillary, Cable, Chemicals, Consumer Durables, Electronics, Financial Services, Glass, IT, Metals, Paper, Plastic, Power Generation, Printing and Tea/Coffee
- Net profit margin defined as a ratio of profits to net sales was unchanged at 10.1% for Q1 FY14

- o Industries that showed improvement in profit margins were: Auto Ancillary (6.1% to 6.7%), Cables (3.3% to 4.2%), Chemicals (5.5% to 5.9%), Consumer Durables (4.8% to 5.1%), Diesel Engines (13.0% to 13.8%), Financial Services (18.4% to 18.6%), Glass (4.0% to 5.5%), IT (20.5% to 21.8%), Metals (21.6% to 42.7%), Packaging (0.2% to 1.8%), Paper (1.9% to 2.2%), Plastic (6.3% to 6.7%), Printing (11.0% to 11.8%), Tea/Coffee (6.0% to 7.6%), Textiles (1.4% to 3.7%) and Tyres & Allied (4.9% to 7.6%)
- **Interest cover** defined as sum of interest, provisions and net profit to interest payments remained steady at 1.7 times
 - o Industries witnessing improvement in interest cover were: Abrasive (20.7 to 23.0), Auto Ancillary (8.3 to 10.1), Chemicals (3.9 to 4.1), Cable (2.3 to 2.5), Consumer Durables (6.0 to 7.2), Consumer Food (8.9 to 19.1), Diversified (0.7 to 1.2), Dyes & Pigment (8.9 to 11.6), Electronics (12.6 to 13.7), Glass (1.5 to 2.0), IT (33.8 to 49.3), Packaging (1.4 to 1.9), Paper (1.3 to 1.9), Pesticides (7.5 to 8.4), Printing (9.3 to 11.8), Tea/Coffee (4.6 to 6.0), Textiles (1.4 to 2.2), Tyres & Allied (4.6 to 7.1) and Wood & wood products (1.7 to 1.9)

Banking Sector:

The performance of 35 banking companies showed that net sales (all interest income) increased by 10.0% in Q1 FY14 as against 24.8% in the previous year. Interest expenses, grew at a lower rate of 8.5% (27.9). The growth in provisions and contingencies, which includes provisions for NPAs increased significantly by 48.2% (19.1%) in Q1 FY14. Net profit saw a decline in growth to 7.7% as against 22.3% in Q1 FY13. Consequently, net profit margin continued to be under pressure and declined to 11.2% as against 11.4% same period last year.

Average Gross NPAs and the Net NPAs increased to 3.24% (2.58%) and 1.91% (1.33%) respectively in Q1 FY14. More significantly, gross NPA has increased by Rs 43,057 crore resulting in a growth rate of 43.6% in Q1 FY14. The high growth in NPAs may be attributed to lower economic conditions as well as negative growth in profits of the medium and smaller sized companies. The impact of the economic slowdown is getting reflected in the increase in NPAs. On the positive side, all the banks have maintained capital adequacy ratio of above 10%. 12 banks saw an increase in this ratio in FY13 when compared with last year.
