

CARE Ratings Survey on Investment Prospects: September 2021

Dear Sir/Ma'am:

It is progressively challenging to gauge the state of the economy with various high frequency data points providing clues. There has been considerable volatility in these numbers and the base effects seem to distort the view often. While we do hear from some companies that they are on the path of planning investment the picture from the debt market and credit growth is mixed. It is against this background that we have launched this questionnaire to get your views on the investment and growth prospects for the economy. We will be thankful if you could provide your perspective by answering this questionnaire.

Kind regards,

Madan Sabnavis
Chief Economist, CARE Ratings Limited
